

Exemption sheet for Battery and battery-powered products

Exemption sheet for Battery and battery-powered products

What are Dangerous Goods?

A product will be regulated as dangerous good if any of its components are classified as dangerous goods or substances or are otherwise regulated by any official organization that governs safe transport, storage, or handling of goods.

For more information on dangerous goods, please consult the Dangerous Goods Identification Guide in Seller Central Help.

Examples of Dangerous Goods

Important note: This exemption sheet is required and will be accepted only for products that may need batteries to function (even if the batteries are not included with the product or if the product is to be plugged-in) or that are **batteries themselves**. If your product does not belong to that category but is otherwise regulated as dangerous good or contains chemicals and/or substances (e.g. cleaners, essential oils, paint related products), please provide a Safety Data Sheet (to be obtained from your manufacturer) instead of a battery exemption sheet.

This exemption sheet must be **completely filled out** before being submitted: **all cells in red must be informed**, across all 2 pages (move to the right). For **complete instructions**, please go to the **Instructions tab of this Excel file**.

Date: 30/10/2023 First name: **DANTONG** Last name: **ZHANG**

Please enter your first and last name. If a company name is entered, the exemption sheet will be rejected

Disclaimer: By submitting this document to Amazon, you hereby confirm that you have checked the regulations applicable to your product and that the information you provide is correct. In the case of erroneous or incomplete information provided through this exemption sheet, Amazon reserves its right to take the corresponding actions without prior notice. These actions may include but are not limited to: blocked purchase order placement, classification and inbound delays, and disposal of existing inventory at your expense.

If there is anything else you would like to tell us about your products, please use this box to share comments

Declaration table for products that need batteries to function or that are batteries themselves:

ASIN	Product title	What's in the box?	Are batteries sold with the product or is the product a battery?	Chemical composition / cell type of the battery	Battery packaging	No. of cells	Watt-hours	Spillability	Details validation status
B0CLLWVVB3	Xiaomi Redmi Note 13 Pro 4G 2.2GHz 8GB+128GB Purple	Smartphone	Yes	Lithium_Polymer	In Equipment	Single_cell	WH <= 20		Complete
