Scope of delivery

- Galileo thermometer
- User manual

Technical data

Measuring range		18 – 28 °C
ingredient		100% paraffin oil
Mass	Height	27 cm
	Base diameter	50 mm
	ball diameter	20 mm

use

- Place your Galileo thermometer anywhere in your home or office. Ideally, place it where you and your guests can always see it – for example, on a shelf, on the windowsill, or on the desk.
- It is ready for immediate use. Give your new thermometer some time, though. Because the liquid inside the glass column first needs to "get used to" its new environment.
- The colored balls begin to sink or rise, depending on the current room temperature. After just a few moments, the Galileo thermometer has calibrated itself and you can see at a glance how warm or cold it is. To do this, simply read the measuring plate of the sphere that floats at the top of the glass column.
- The Galileo thermometer works according to the physical law of buoyancy. This means that all measuring spheres whose imprint indicates a lower temperature than the actual temperature will sink to the bottom of the glass column.
- Only the glass spheres, which represent a higher temperature, begin to float. The measuring plate of the sphere, which floats freely at the bottom in the glass body, shows you the current temperature.

First aid instructions

- After contact with the skin:
Wash skin with water/shower.
- After contact with the eyes:
Rinse gently with water for a few minutes.
- After ingestion by swallowing:
Rinse mouth. Call a doctor if you feel unwell.

Safety instructions

- This user manual is designed to familiarize you with how this product works. Therefore, keep these instructions in a safe place so that you can refer to them at any time. Pass them on to subsequent users.
- Please observe the safety instructions when using the product.
- Modifying or altering the product will compromise product safety. Caution: Risk of injury!
- All modifications and repairs to the device or accessories may only be carried out by the manufacturer or by persons expressly authorized by the manufacturer.
- Not suitable as a children's toy.
- Never open the product yourself. Never attempt repairs yourself!
- Handle the product carefully. It can be damaged by bumps, blows, or falls from even a low height.
- Keep the product away from moisture and extreme heat.
- Never immerse the product in water or other liquids.
- Technical specifications subject to change without notice. Errors and omissions excepted.
