

IF LM160, LM280, LM210 shows “Label Jam!” Error or does not Function

1. Insert New batteries or connect Dymo power adapter
2. Open cassette door cover
3. Press white switch (pictured) and the should turn
4. If it does not turn, then rotate the sprocket manually Clockwise 5 times
5. Press the white button again to check if the sprocket turns
6. Insert cassette to ensure if the printer prints
7. If it still does not function then replace the unit
