My “Simple” Instructions for Woods Model #50008

To Get Started:

Consumers may find timers on shelves with a blank screen. This is shipped from the manufacturer as a pre-installed battery to preserve the life of the device while on retailers’ shelves prior to the consumer purchasing the timer.

Take an object such as a toothpick or extended paperclip: place in the **hole** (R) for 3-5 seconds; Release. Digital 8888888888 will generate and transition to 12:00.

Set Military or Standard Time:

Press **and** HOLD the CLOCK Key for about 5 seconds; (24H) should appear.

Release and press the HOUR Key 1 time to change to (12H)

Press the CLOCK key 1 time for normal clock display.

Set the Current Time:

Press & Hold the **CLOCK** key with your right thumb; simultaneously or at the SAME time, with your left finger/thumb, press the **HOUR** key to set the current hour

Release

Press & Hold the **CLOCK** key with your right thumb; simultaneously or at the SAME time, with your left finger/thumb, press the **Minutes** key to set the current minutes

Release

Press & Hold the **CLOCK** key with your right thumb; simultaneously or at the SAME time, with your left finger/thumb, press the **Day** key to set the current day of the week

Programming the Timer

Press 1x-- DO NOT HOLD the *PROGRAM* key--1 X: (1 ON --: --) appears

Press or Toggle—DO NOT HOLD-- the *DAY* key until ALL 7 days display as a group or the days you prefer

Immediately, press/toggle the Hour key until you reach your appropriate a.m. or p.m. hour.

Press PROGRAM button 1X— (1 OFF --: --) appears

Press or Toggle—DO NOT HOLD-- the *Minute* key until your desired minutes display. You may skip this step if it is :00 o’clock that you need—it will appear as your default minutes

Press the CLOCK button to exit the programs.

If you set a PROGRAM in error, simply:

Find that Program by pressing PROGRAM.

Press and hold the RST/RCL button for 1-2 seconds—this **deletes**, resets and/or recalls the programmed time.

Follow this link should you not have a display screen upon purchase.
