## SPARE PARTS

### UNDERSTAND

1 When battery life is below 10%, the audio will beep every 15 min. You can find replacement parts at [logitechG.com](http://logitechG.com) in selected regions, including:

- Headband strap

- Earpads
- Mic
- Cable

- 2 When battery life is below 2%, the lights will flash red and the audio will beep every 15 min.
- 3 When plugging the charging cable, the lights will breath green 5 times and revert to its previous state.
- 4 When muting the mic, the lights will flash red and the audio will beep twice.
- 5 When unmuting the mic, the lights will flash green and the audio will beep three times.
- 6 When using G HUB software, pressing the ON/OFF button once when the headset is ON will let you know the battery life remaining.

- Receiver

## LOGITECH G HUB SOFTWARE

### RECYCLING

(Optional) Download Logitech G HUB software to access advanced features. Download at [logitechG.com/GHUB](http://logitechG.com/GHUB). Logitech G HUB software lets you customize many features, including:

- Enable/disable DTS Headset:X 2.0 Surround Sound

We encourage you to resell or donate working products. Otherwise, batteries, electronic and electrical equipment should not be disposed of with household waste. Wherever possible, they should be segregated and brought to an appropriate collection point to enable recycling and avoid potential impacts on the environment and human health. For more information, contact your local authorities or place of purchase, or visit [www.logitech.com/recycling](http://www.logitech.com/recycling)

- Enable/disable Blue VOICE mic enhancement
- Adjust EQ settings
- Sidetone
- Lighting
- Mute button assignment

## Troubleshooting gaming-keyboard profile detection using Logitech Gaming Software

You can configure your gaming keyboard separately for each game or application on your computer (see [360023244954](#) for instructions). When a game is launched, the profile associated with it should activate. Sometimes, the profile doesn't activate properly, which can prevent game-specific settings from being applied.

When a game profile isn't activating properly:

- Try using a Persistent Profile (see answer [360023244954](#) for instructions).

**NOTE:** Using a persistent profile will help you determine if the Logitech Gaming Software is working properly.

- Make sure the correct .exe file is selected for the game (see answer [360023244954](#) for help).
- Check that both the single player and multiplayer .exe files have profiles (see answer [360023244954](#) for help)
