

Instructions For Use

Presoak

For best results pre-soak to remove stains and revive dingy whites.

1. Mix

1 scoop of OxiClean™ per gallon of the warmest water recommended by the garment care label. Dissolve completely and submerge clothing.

2. Soak

For 6 hours.

3. Wash

As normal with detergent and OxiClean™ filled to line 2.

Wash Top Loader

For best results pre-soak to remove stains and revive dingy whites.

1. Mix

1 scoop of OxiClean™ per gallon of the warmest water recommended by the garment care label. Dissolve completely and submerge clothing.

2. Soak

For 6 hours.

3. Wash

As normal with detergent and OxiClean™ filled to line 2.

Wash High Efficiency

1. Add

Add detergent as you normally would and OxiClean™ directly into the drum **BEFORE** adding laundry.

2. Fill

For regular load, fill to line 2. For large loads add more. Do not mix OxiClean™ with detergent in dispenser. Read HE owner's manual for instructions.
