

ghd glide hot brush

How to Use:

- Begin with dry, detangled hair
- Plug your ghd hot brush into the power supply, press and hold the button to turn the appliance on.
- When you're finished styling, press and hold the On/Off button for more than two seconds to turn off.
- Unplug the appliance and allow to cool in a safe place
- Fold the power cord the same way it was packaged. Do not wrap the cord around the brush.
- To give you extra peace of mind while styling, the ghd glide will go into an automatic sleep mode which switches off after 60 minutes of non-use
