

## Safety Manual

### 4G LTE Wireless Dongle

AB22A075001

EN

#### Important Safeguards

**⚠ DANGER Risk of suffocation!** Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

- Read these instructions carefully and retain them for future use. If this device is passed to a third party, then these instructions must be included.
- The device is intended for private use.
- This device provides 4G LTE network access to up to 10 Wi-Fi enabled devices, such as computers, smartphone, tablets and smart TV.
- This device provides 4G LTE network via a SIM card of your choice. SIM card is not included in the package.

- This device is compatible with Windows 7/8/10 and macOS X 10.7/10.8/10.9 operating systems.
- Use only the supplied USB charging cable with the device. Do not connect the USB charging cable to any other devices.
- Only use this device for its intended use.
- Keep the device away from children and pets.
- Do not expose the device to rain or moisture.
- Always check the device, especially the tip, for signs of damage before use.

#### Battery Warnings

**⚠ CAUTION Risk of explosion!** Risk of explosion if the battery is replaced by an incorrect type.

- Exhausted batteries should be immediately removed from product and properly disposed.
- Keep batteries out of the reach of children.
- Do not dispose of batteries in fire.
- Remove batteries from product if it is not to be used for an extended period of time unless it is for emergency purposes.
- If the battery leaks avoid contact with skin and eyes. Rinse affected areas immediately with plenty of clean water, then consult a doctor.

#### Explanation of logo

	Direct current (DC).
--	----------------------

#### Cleaning

##### NOTICE

- Unplug the device before cleaning.
- During cleaning do not immerse the device in water or other liquids. Never hold the device under running water.
- To clean the device, wipe with a soft, slightly damp cloth.
- Wipe the device dry after cleaning.
- Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the device.

#### Storage

- Cover the dongle with the protective cap.
- Store the device in a dry area. Keep away from children and pets.

#### Specifications

Model number	AB22A075001
Power input	5 V  max. 2 A
Battery type	Li-ion, 3.7 V  2100 mAh

Charging time	1.5 to 2 hours
Max. operating time	6 hours (1 device connected); 3 hours 40 minutes (10 devices connected)
Network mode	4G/ 3G /4G Only/ TD-SCDMA/WCDMA Only
Network type	FDD/ TDD-LTE
Frequency band:	FDD-LTE:B1/B3/B5/B8 TDD-LTE:B38/B40/B41 WCDMA/DC-HSPA+:B1/B
Wi-Fi standard	IEEE 802.11/b/g/n up to 150 Mbps* (download) up to 50 Mbps* (upload)
Wi-Fi band	2.4 GHz
Wi-Fi range	Max. 15 metre**
SIM interface type	Micro SIM card
Memory card support	No
Chipset	Qualcomm MSM8916
Wi-Fi antenna	Built-in

Setup mode	Plug & Play
Support Wi-Fi hotspot	Yes
Wi-Fi sharing	Up to 10 Wi-Fi enabled devices at a time
SIM support	All SIM network
Compatible operating system	Windows 7/8/10 and macOS X 10.7/10.8/10.9
USB cable length	13.4 cm
Operating temperature	0 °C to +50
Storage temperature	-10 °C to +70 °C
Humidity	10 to 90 %
Net weight	97 g
Dimensions (W x H x D)	9.85 x 6.58 x 1.47 cm

\* The standard transmission rate of 150 Mbps is the physical data rate. Actual data throughput will be lower.

\*\* Wireless performance may vary depending on the networking environment.

## Trademark

- ▶ LTE is a registered trademark owned by ETSI (European Telecommunications Standards Institute) for the wireless data communications technology and a development of the GSM/UMTS standards.
- ▶ Windows® is a registered trademark of Microsoft Corporation.
- ▶ macOS is trademark of Apple Inc., registered in the U.S. and other countries and regions.
- ▶ Qualcomm is trademark of Qualcomm Incorporated, registered in the U.S. and other countries and regions.

## Warranty and Customer Service Information

For Customer service related queries and claiming warranty:

- A) Go to 'Your orders' section on Amazon website
- B) Select the product
- C) Click on 'Get product support' and
- D) Schedule an appointment

## Battery Disposal

Do not dispose of used batteries with your household waste. Take them to an appropriate disposal/ collection site.

## Amazon Brand - India E-waste Program

Recycle your old Amazon brand products and help protect the environment.

### Consequences of Improper E-Waste Handling & Recycling:

E-waste when disposed or recycled improperly, can cause severe environmental pollution and adversely affect the human body as they contain excess of toxic chemicals like mercury, polybrominated flame retardants, barium, lithium and PVC. The common process of burning of e-waste in informal e-waste recycling and disposal facilities releases toxic gases into the atmosphere, causing severe air pollution. Besides that, poor recycling and improper disposal of e-waste leads to a lot of pollutants such as heavy metals like cadmium, lead and persistent organic pollutants to be released into the atmosphere, which further pollutes the eco-system and causes health hazards.

Alternately the practice of dumping of e-waste into landfills as followed by the informal e-waste recycling and disposal facilities eventually makes the hazardous and toxic components of e-waste seep into the eco-system including the regional water tables, causing soil pollution and contaminating the water table. Such contamination will affect nearby communities in an adverse manner for much

longer time.

Accidental breakage and damage of electronics and e-waste can pose a threat to the environment. As long as the toxic components in electronics are enclosed within the original manufacturer's designed outer-shell of the gadget, they don't pose much of a danger as they have been engineered to contain any such effects. However, accidental breakage or damage of such electronics or e-waste can lead to toxic elements leaking and contaminating their immediate environment. Damage to the environment due to accidental breakage of e-waste is a major concern in informal e-waste disposal and recycling facilities, so consumers need to ensure that their e-waste is being disposed only through authorized recycling points.

### Amazon Brand Recycling Program (India):

Retektech Envirotech Private Limited ("Retektech"), a recycling company, has been authorized to provide e-waste disposal service to all customers who have purchased Amazon brand products. Retektech has a PAN-India collection mechanism for collecting e-waste from customers and for further disposal of such e-waste as per the E-Waste (Management & Handling) Rules, 2016 effective October 1, 2016 and amendments therein.

Retektech will provide e-waste drop off points and ensure environmentally sound management of electronics that have reached their end-of-life phase. Retektech has all the necessary authorizations from the appropriate governmental agencies for their processing facilities. Retektech ensures proper recycling and disposal of e-waste, and does not incinerate, send e-waste to landfill or export hazardous e-waste to other countries. This helps us protect the environment from any hazardous consequences, which would be otherwise caused by the inappropriate waste management of e-waste.

To know more about Retektech collection points and how to recycle your Amazon brand product - (i) Log on to <https://www.retektech.co/recycling> or (ii) Call up Toll Free Number: 1800-212-2426 or (ii) Write to - [info@retektech.in](mailto:info@retektech.in)

### Instructions of handling the product during and after its use and Do's and Don'ts with respect to handling the product:

#### Do's:

- a) Always look for information in the product's user's guide for end-of-life equipment handling.
- b) Ensure that only authorized recyclers handle your electronic products.
- c) Always call local authorized e-waste

collection centers to dispose products that have reached end-of life phase.

- d) When your used electronic products, batteries or accessories reach the end of their life, always dispose them at your nearest authorized e-waste collection center.
- e) Wherever possible or as instructed, separate the packaging material according to responsible waste disposal options and sorting for recycling.
- f) Always ensure any glass surface is protected against breakage.
- g) Kindly ensure that the product is properly packaged as per instructions before handing it over to the authorized Recycler.

#### Don'ts:

- a) Do not dismantle your electronic products on your own.
- b) Do not throw electronics having "Do not Dispose" symbol on the product package in your regular garbage bins along with municipal waste since it will ultimately reach a landfill.
- c) Do not give e-waste to informal and unorganized sectors like local scrap dealers.

Be a Responsible User. Recycle your E-Waste for a Greener Planet.
