

**Q: Are your laundry products ok to use with Septic Tanks?**

A: Our laundry products have been thoroughly evaluated and are safe to use in homes with septic tanks. Using normal, recommended amounts of these products will not disturb the septic system (including aerated systems) or damage plumbing systems with a properly functioning septic tank.

**Q: How do Tide PODS® Free & Gentle work?**

A: Tide PODS® clean, fight stains, and brighten all in one. The unique, multi-chamber design allows ingredients to remain separate, stable, and potent — mixing only when they hit the wash for outstanding cleaning and stain removal.

**Q: How do I use Tide PODS® Free & Gentle?**

A: Place a pod in the washing machine drum before you add clothes (never add Tide PODS® Free & Gentle to the dosing drawer). For especially dirty loads, you can add a second pod.

**Q: Do Tide PODS® Free & Gentle work in front- and top-loading machines?**

A: Yes, Tide PODS® Free & Gentle work well in standard and high efficiency machines. The formula is designed to prevent over-sudsing while also giving a great clean.

**Q: Will Tide PODS® Free & Gentle dissolve in cold water?**

A: Yes, the film is designed to dissolve in all water temperatures, hot or cold.

**Q: Do Tide PODS® Free & Gentle work equally well on whites and colors?**

A: Yes. Tide PODS® Free & Gentle have been thoroughly tested on all sorts of laundry conditions, and are safe for both whites and colors.

**Q: Should I worry about staining or residues?**

A: No. Tide PODS® Free & Gentle are designed to dissolve completely in all water temperatures, and will not stain your clothes when used as directed.
