## ADVICE FOR USE AND CARE

- Placing your scale on a hard. Flat surface, and make sure it is steady before use.
- And then please place the object that will be weighed in the middle of the scale to ensure the greatest accuracy.
- Do not use chemical abrasive cleaners to clean the scale.
- Do not allow your scale to become saturated with water as this can damage the electronics.
- Do not store the scale in an upright position when not in use as this will drain the batteries.
- Remove the batteries if the scale is not being used for a long time.
- Treat your scale with care because it is a precision instrument.
- Do not drop it on it.
