What's included

Roku Streambar

Premium High Speed HDMI® Cable

Remote

RC-EL1

Two AAA batteries

Optical cable (optional)
Only use if your TV does not have an HDMI-ARC port.

Power adaptor and cable

Details

Let's get started

STEP 1: Adjust TV settings

Have a Roku TV? Simply use the remote that came with your Roku TV and follow steps 2 and 3. The rest is automatic, even linking your Roku account.

All other TVs

You may need to enable your TV's HDMI-CEC and ARC settings. TV manufacturers use different names for these settings, so refer to your TV manual. For help setting up your device, visit go.roku.com/streambar

STEP 2: Connect to Power

Use the included power adaptor and cable to connect your Roku Streambar to a wall outlet.

TIP: Place your Roku Streambar at the front edge of your TV stand for the best sound experience.

STEP 3: Connect to TV

Connect your Roku Streambar to the HDMI® port on your TV labeled “ARC” with the included cable. Don’t see an HDMI-ARC port? Use the included optical cable along with the HDMI Cable to connect.

STEP 4: Select input

Use the remote that came with your TV to select the HDMI® input (source) you used to connect your Roku Streambar.

STEP 5: Insert batteries

Slide open the cover on the back of your remote and insert the included Duracell® batteries. Your remote will pair automatically.

STEP 6: Follow the on-screen setup

Follow the instructions on your TV screen. Activate your Roku Streambar by using your computer or smartphone to link to a Roku account.

IMPORTANT: Roku does not charge for activation support – beware of scams.

Common questions

What is HDMI-CEC?

Consumer Electronics Control (CEC) lets you control your TV’s power with the Roku Streambar remote, so you don’t have to juggle remotes.

What is ARC?

Audio Return Channel (ARC) sends audio from your TV and all of your inputs to your Roku Streambar using the HDMI Cable. Connect your Roku Streambar to the HDMI port “ARC” on your TV.

Do I need to enable HDMICEC and ARC on my TV?

While some TVs automatically enable these features, others require you to enable them through the settings menu. TV manufacturers use different names for these settings, so refer to your TV manual or visit go.roku.com/hdmihelp

Why do I need to create a Roku account?

You’ll need a Roku account to stream, add channels, easily manage subscriptions, rent movies, and more.

Why do I need to enter a credit card?

Saving a payment method makes it easy to rent or buy movies, subscribe to popular channels, and start free trials in just a click. No charges will be made without your authorization.

Can I use the included remote instead of my Roku TV remote?

Yes, to learn how to use the remote included with your Roku Streambar, visit the link below.

Tips and Tricks

Using Sound Settings

While streaming, press (*) to view Sound Settings, like:

- **Volume Levelling**
Helps keep your volume consistent and quiets loud commercials.
- **Speech Clarity**
Improves clarity of voices so your favorite TV is easier to hear.
- **Night Mode**
Lowers loud scenes while boosting quiet ones so you don't wake the house.

Pairing a Bluetooth® device

- From the home screen, go to Settings and select Remotes & devices.
- Then choose Pair Bluetooth device and follow the instructions.

Using voice commands

Press and hold the voice search button and say things like:

"Play classic rock"

"Set volume to 30"

"Launch The Roku Channel"

Voice support is currently available in English only.
