

Motion Sensor Light Manual

Motion Sensor Light Manual

Thank you for purchasing our product. Please read the manual carefully before use for a better experience. If there is any problem, please feel free to contact us, and we will help you solve it within 24 hours.

⚠ Cautions:

1. Please check whether all the components are included and whether the product can work well.
2. The waterproof grade of this product is IP44 and it cannot be fully exposed for outdoor use.
3. The sensitivity of the sensor is related to the surrounding temperature. If the working temperature is too high, the motion sensor light may be out of work.
4. Please do not modify the product during the warranty period.
5. If there is any problem during use, please do not repair it by yourself and please contact our customer service to solve it.
