

### Fitting the harness on your dog

1. Place upper neck straps (F) around pet's head
2. Wrap two lower straps (D) around pet's chest, behind front legs
3. Fasten Quick Release Buckles (C) on both sides
4. Adjust all straps to fit comfortably

#### Warning!

Do not use chest plate D-ring (G) or leash hitch (B) for securing in a vehicle. Replace harness if it shows signs of wear or has been in a crash situation.

### To use as a walking harness:

The Kurgo Tru-Fit Smart Harness™ is designed with the owner's and dog's walking needs in mind. The front chest plate provides a centrally located D-Ring for leash attachment, which helps deter your dog from pulling.

When your dog pulls, the force redirects them to one side or the other as you walk together. This sends them back in your direction and reduces pulling. The easy on-and-off design, and multiple adjustment points makes the Kurgo harness a great alternative to other training harnesses and collars.

For training purposes only, do not use with aggressive dogs.

### To use as a vehicle seatbelt harness:

Securing your dog safely into the vehicle may be done in two ways.

#### A) Best Practice - to reduce excursion (pitching forward)

Attach the tether's carabiner (only) directly through the top layer of webbing on the harness back strap (A), then attach all to the secured vehicle seatbelt.

#### B) Good Practice

Loop the tether handle around the seatbelt, passing back through itself, and then clip the carabiner to the harness back strap (A). This way allows a little more freedom of movement for your dog.

Products displaying this symbol are intended to prevent dogs from entering the front seat where they can interfere with the driver and cause distracted driving accidents. They are intended to serve as either physical barriers to the front seat or restraints that keep pets from roaming around in the car. If used properly, they should keep dogs from entering the front seat, but they cannot guarantee containment nor protect from injury in every situation.

### Cleaning Instructions

Our product cleaning instructions will help ensure that your gear has a long, exciting life. Washing by hand and hang air-drying is the best way to care for your Kurgo products.

#### Hand Wash Instructions

1. Brush off loose dirt with a dry brush.
2. Spot clean with a damp sponge, cold water, and mild soap. Avoid harsh detergents.
3. If necessary, rinse larger area to eliminate excess soap residue.
4. Hang to air dry (do not machine dry).

**NOTICE:** For supervised use only. Product is not intended to be chewed or ingested. Inspect product regularly for damage.

Product is intended to restrain your pet and keep it from distracting you while driving. This product has not been crash tested and cannot guarantee protection from injury in the case of an accident.

Please contact Kurgo directly with any product or warranty inquiries.

# LIFETIME WARRANTY

## WE ARE COMMITTED TO QUALITY

Kurgo prides itself in making superior quality products. There's nothing more frustrating than buying a product that breaks. If, during your product's lifetime, it does not function as it should due to a manufacturing defect, we will repair or replace your product free of charge. Hassle and worry free!

Please fill out a [Warranty Claim Form](#) on Kurgo.com to get started.

**US and Canada only. If you are outside of the US and Canada and have an issue with a Kurgo product, please contact us at [info@kurgo.com](mailto:info@kurgo.com)**

## FREQUENTLY ASKED QUESTIONS

### What is covered by the Kurgo Warranty?

Manufacturer's defects caused by poor craftsmanship or defective hardware or materials when purchased through authorized Kurgo dealers.

### What is *not* covered by the Kurgo Warranty?

All products, except toys, are warranted against manufacturing defects when purchased through an authorized dealer. If your Kurgo product is damaged in the course of normal (or abnormal) wear and tear, you may not qualify for our warranty replacement, but we do offer a complete [Repair or Replacement Service](#) for a nominal fee.

We do not warranty or offer the Repair or Replacement Service for our toys, because toys, after all, are mostly to be chewed. We believe our toys are very durable, but some dogs are tougher chewers than others.

Products damaged while being used in an unintended way are not covered by the lifetime warranty. For example, the Wander Hammock is intended to be used between two seats sitting on top of a bench seat. You cannot hang a Wander Hammock between two trees or over an open space and expect it to hold any weight.

### How does the Kurgo Warranty work?

Fill out the [Warranty Claim Form](#) on Kurgo.com which requires pictures showing the defect and we'll take a look. If the claim meets our guidelines, we will send you a replacement product free of charge. US and Canada only. If you are outside of the US and Canada and have an issue, please email us at [info@kurgo.com](mailto:info@kurgo.com)

### Repair or Replace Service

Products failing due to normal wear and tear, abuse, accident, critters, or natural breakdown of materials over extended use and time can be repaired or replaced for a nominal fee. See our [Repair or Replace Service](#) policies for more information.

### Customer Service

If you are experiencing any problems or have any questions about your Kurgo Product, our Customer Service Department is here to help. Please feel free to email us at [info@kurgo.com](mailto:info@kurgo.com) or call us directly at (877) 847-3868.
