

SPLASH HOOP 360®

Assembly Instructions: We have pre-glued as many parts as possible to make the hoop set up quick and easy. When assembling the parts, make sure all pieces are firmly connected.

- Insert the 3 straight PVC Pipes into the Base Connectors (larger circle with foam)
- Connect the Top Connectors (smaller circle with net) onto the 3 PVC Pipes
- Ensure that all the parts are firmly connected and enjoy!

Care Instructions:

- Store indoors when not in use - Leaving your Hoop in the water and/or out in the elements will cause discoloration and weaken the materials.
- Use care when disassembling the parts to prevent the Connectors from cracking or breaking. Remember that the top and bottom circles are pre-glued, so only the 3 straight PVC Pipes should be removed from the Connectors.

WARNING:

- Not a floatation or life saving device.
- Never jump, climb or hang on the hoop.
- Only use with adult supervision.
- Only use for intended purpose.
- Stop using immediately if any parts break.
- Only use with included balls.

Customer Service:

If you have any questions or concerns regarding your GoSports® Splash Hoop 360®, please reach out to us at info@PlayGoSports.com and we will get back to you right away. We stand behind our products 100% and want to make sure you get the full enjoyment that you paid for.
