

For proper use, you need pair the remote with your camera below are the steps for reference:

- (1) Make sure the lock switch on the left side of the remote is NOT in lock position
- (2) Menu - Network - Bluetooth setting - Bluetooth function - ON
- (3) Menu - Network - Bluetooth RMT Ctrl - ON
- (4) Menu - Network - Bluetooth setting - Pairing
- (5) Hold down both the shutter button and Zoom + buttons on the remote simultaneously for more than 7 seconds
- (6) When a confirmation message appears on the camera screen, tap "OK" and it will appears "Paired"

User notes:

- (1) The zoom buttons on the remote only works for power zoom lenses when used on mirrorless cameras.
- (2) The zoom buttons on the remote will not work when taking RAW or RAW + JPEG. It only works when taking JPEG.
- (3) You cannot use GPS location tagging when using this remote.
- (4) If you turn off the camera and then turn it on again, you need to wait for a few seconds and then activate the remote by pressing one of the buttons on the remote.
