

Windows 8 and Windows 10 support for Logitech mice and keyboards

If you purchased your product before the Windows 8 release, you can check the list below to see if it's been identified to work with Windows 8 and Windows 10.

- [Mice](#)
- [Keyboards](#)
- [Combos](#)
- Gaming mice and keyboards (see answer [360023353713](#))
- Other Logitech products (see answer [360023353713](#))

What if my product isn't listed?

If your product isn't listed and you purchased it:

- **BEFORE** the Windows 8 release - The product isn't supported on Windows 8 or Windows 10.
- **AFTER** the Windows 8 release - Check the product's Support page > Downloads tab for current software support.
TIP: For newer product support, check the product packaging and web pages.

Mice that work with Windows 8 and Windows 10

NOTE: For gaming mice, see answer [360023353713](#).

The products listed here:

- Have only basic functionality on Windows RT. Software and app support aren't available for Windows RT.
- Will provide basic navigation in Windows 8 style UI. Features programmed in SetPoint software may not function in this mode.
- Unless noted otherwise, Windows 10 software is SetPoint 6.67.82 and later.

* Indicates a limitation with SetPoint programmability. Some device LCD /Email or IM notification functionality isn't supported.

** No desktop software.

NOTE: Logitech mice and keyboards are Human Interface Devices (HID). HID drivers are native to modern Windows operating systems, enabling basic functionality without the need for other software. To use enhanced features, such as programming keys and buttons, additional software may be required. See the product's Support page > Downloads tab for software availability.
