**PAIN MIXER**  
**Instructions**

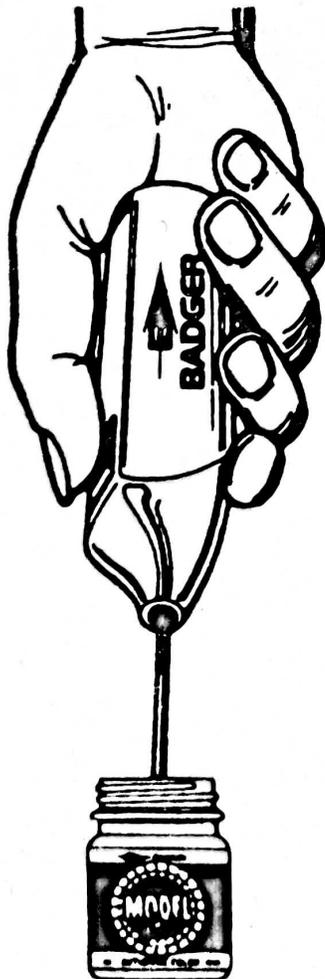

**Use 2 AA  
Batteries**

To insert batteries in mixer, slide end cover off and insert batteries as shown on side of mixer.

Insert mixing rod into body of mixer (make certain mixer is in off position before inserting mixing rod. Fit snugly).

Insert mixing rod into paint jar (do not turn mixer on until rod is in jar) and slide thumb switch to turn on mixer.

Do not remove mixing rod from jar until you have turned mixer off (this will prevent spatter). Soak clean cloth in proper cleaner and wipe mixing rod clean.

Keep mixer away from eyes and face.

Remove batteries when not in use.
