32" Odyssey OLED G8 (G80SD) 4K UHD 240Hz 0.03ms G-Sync Compatible Smart Gaming Monitor with Sleek Metal Design

Samsung's Odyssey OLED G8 Gaming Monitor brings content to life with 4K UHD OLED. Images shine with 250 nits of brightness and a wider spectrum of colors, shades, and contrasts. 240Hz refresh rate, and 0.03ms response time (GtG) allow near-instant response time to stay ahead of the competition, and AMD FreeSync™ Premium Pro eliminates screen lag and image tears. The new OLED Safeguard+ — including Dynamic Cooling and Thermal Modulation systems — helps prevent burn-in. OLED Glare-free technology significantly reduces glare, and the Dynamic Black Equalizer analyzes and adjusts sharpness, saturation, and black details. Gaming Hub provides instant access to streaming platforms and gaming consoles, or you can watch your favorite shows with Smart TV apps. The sleek metal design with height adjustable screen that swivels and tilts for total gaming comfort, and the Easy Setup Stand enables installation of the monitor with no tools or screws.

Key features

UHD

4K UHD Resolution

Content springs to life in 4K OLED. Brilliant imagery shines with 250 nits (typ) of brightness and a wider spectrum of colors, shades and contrasts. The NQ8 AI Gen3 Processor also upscales lower resolutions to nearly 4K, so you can enjoy higher quality images through the Gaming Hub and Smart TV apps.

240Hz
REFRESH RATE
0.03ms

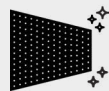

240Hz Refresh Rate and 0.03ms Response Time (GtG)

OLED technology offers a near-instant 0.03ms response time (GtG). Stay ahead of the competition with HDMI 2.1 and DisplayPort connections, providing a 240Hz refresh rate in UHD resolution. Every millisecond counts when you're facing tough opponents.

OLED Safeguard+

Pulsating Heat Pipe was introduced into the monitor to prevent burn-in, and the groundbreaking Dynamic Cooling System reduces temperature at the core. Algorithms predict surface temperature and control the brightness accordingly to automatically reduce heat.

OLED Glare Free

Glare Free technology significantly reduces glare from external light sources, so the OLED screen's perfect black and color experience are presented without distractions. A screen that is 61% less glossy than conventional AGLR film enables you to fully view your game environments, making it easier to get the drop on enemies.

NVIDIA
G-SYNC

G-Sync Compatibility

G-Sync compatibility keeps the GPU and panel synced up to eliminate choppiness, screen-lag, and image tears.

Sleek Metal Design

An upgraded modern design, measuring just 3.9mm at its thinnest point, transforms any room into a high-tech paradise. CoreLighting+ matches your mood with ambient lighting for any vibe, enabling you to create a distinctive space of your own.
