

iBall Earwear Rock

Over-ear Headphone with Mic

USER'S GUIDE

Product Control and Connector Locations:

How to connect:

- Connect 3.5mm jack to the audio jack of the playback device (such as mobile phone, Tablet, laptop, etc.). Playback will start from the device.
- Single 3.5mm jack is for both.....Sound & Microphone.

If Microphone not working than follow below steps....

- a. Check that the microphone Jack is connected properly, the grip is firm and setting in playback device (such as mobile phone, tablet, laptop etc.) is proper. Mostly this issue was caused by poor plug contact / connection or improper setting in the playback device.
- b. If you're connecting this headset to a PC / laptop and these device have separate jack for Sound and Mic, than you need to use this headset through 2-in-1 audio aux cable (not included with this model).

Button & Controller:

- Single push control button: Use these buttons to pick up / end calls & changing tracks during music playback.
- Easy volume controller: To control the headphone volume
