- Except for maintenance personnel, no other person shall repair the product to avoid any accidental injury.
- In case of product use problems, please contact customer service in time.

FUNCTION HIGHLIGHTS

Fresh Air System

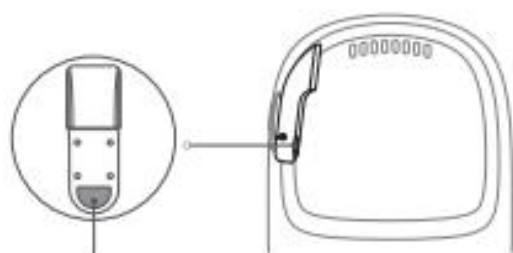

- Auto/manual ventilation mode, intelligent control of wind speed.

Control module

Lighting system

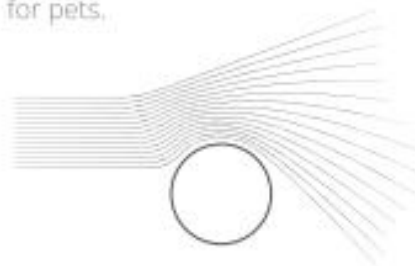

- With built-in lighting system, can also clearly observe the pet status in dark environment

Lamp

Coanda effect

- Change the flow direction of wind according to the convex surface of the object, creating a comfortable and gentle fresh air experience for pets.

Carrying system

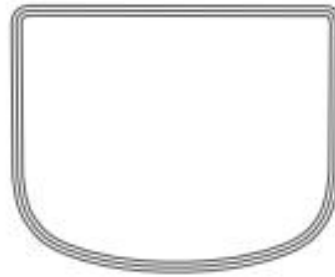

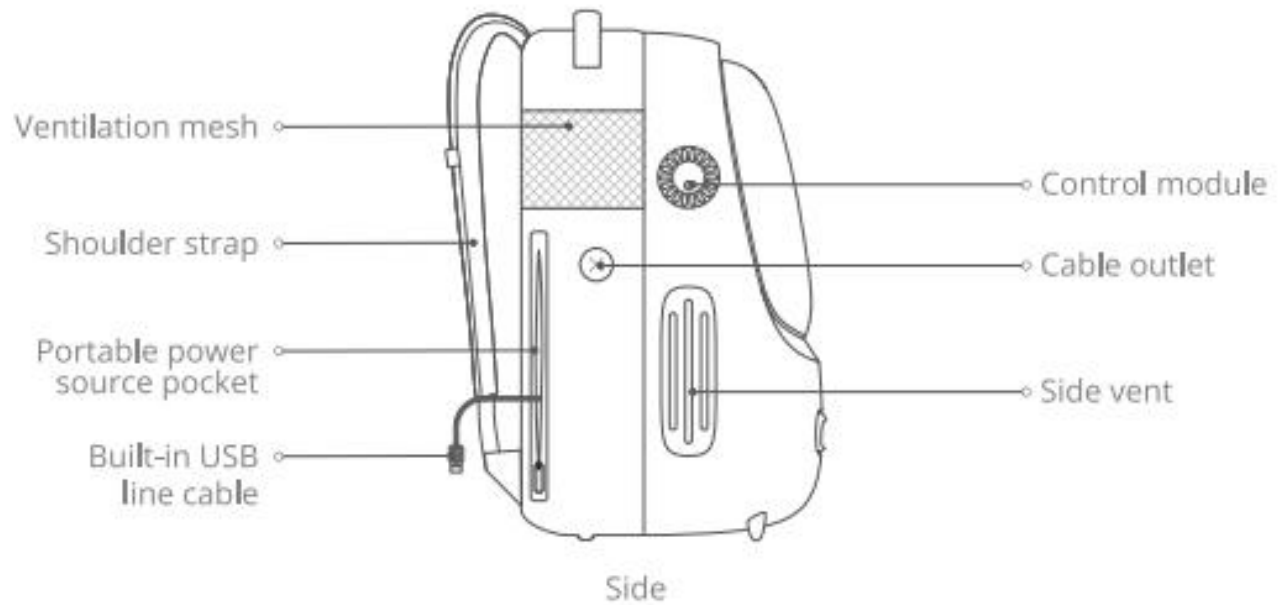

- The ergonomically designed rear bar shape, built-in sandwich mesh and thick lining make carrying more comfortable.
- The S-shaped inner pearl wool shoulder strap fits the human body better, effectively reducing shoulder pressure.

PRODUCT INTRODUCTION

Internal removable base pad

| INSTALLATION

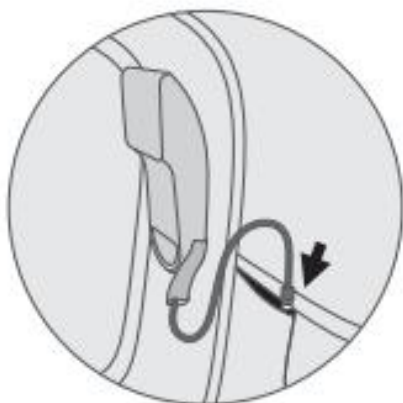

Figure 1 (internal)

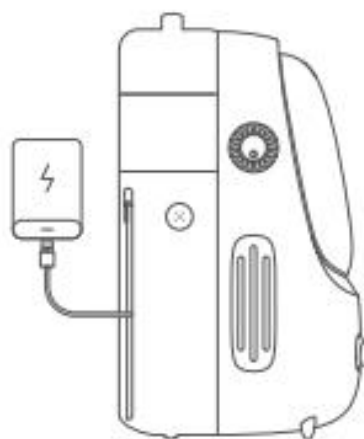

Figure 2 (internal)

- 1 Put the built-in USB cable for the fresh-air system into the inner bag of the backpack, which can conveniently connect to a mobile power source for later use (as shown in Figures 1 and 2)

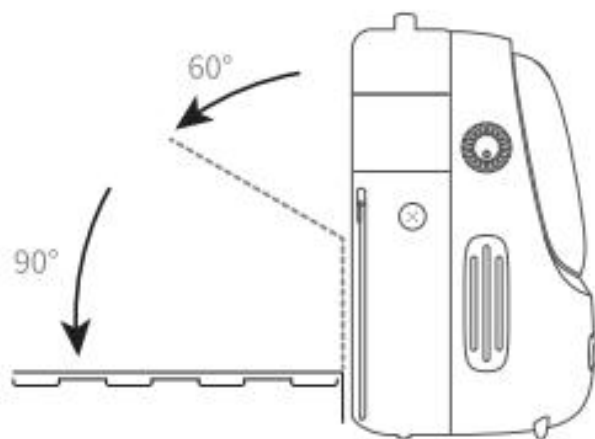

- 2 Place the internal removal pad at the bottom of the backpack. Be aware of aligning the Velcro.

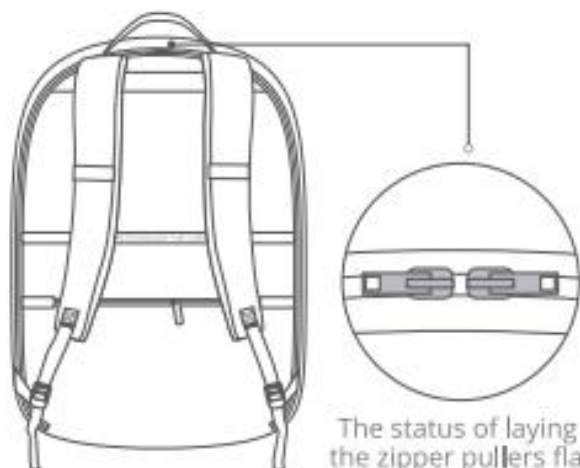

I PRODUCT USE

- 1 Connect to the portable power source (*The product does not contain portable power source) to power the fresh air/lighting system before use.

- 2 Pull the back zip down and put the pet in the carrier (The back panel can be opened at multiple angles, up to 90°.)

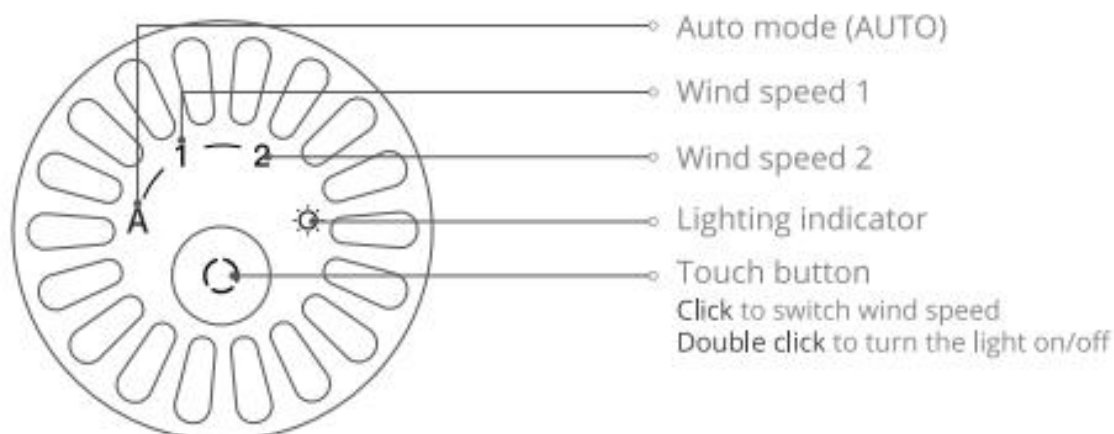

- 3 Zip up: A special close-end zipper is used for this product. Pull the zipper pullers to zip up and lay the zipper pullers flat to lock (as shown in the figure). Thus, pets cannot open the bag easily with claws from the inside, which can effectively prevents pets from escaping.

- 4 Adjust the shoulder straps to the most comfortable position to go out with pets.

PRODUCT USE

Control module instructions

1. After the power turns on, the equipment will turn to the AUTO mode by default, and the fresh air system will automatically adjust the wind speed to the first or second gear according to the ambient temperature. You can also click the touch button to manually switch the wind speed according to the pet state.
2. Double-click the touch button to turn the lighting system on and off.

Portable power source service time estimation table

(The following contents are tested by PETKIT Science Laboratory that based on the full power status of Xiaomi brand portable power source)

Capacity of portable power source	Estimated service time (take wind speed second gear as an example)
5000mAh	About 20 hours
10000mAh	About 40 hours

(*Other battery capacity and so on, different brands are subject to their performance, service life or other status, and the specific service time is based on the actual situation.)

| MAINTENANCE AND CLEANING

- If you need to clean the back part, you can remove the inner bottom pad. Please wipe it with a damp cloth containing detergent, then ventilate and dry in the shade. Do not wring it out or expose it to the sun. (* Please note that the electronic components inside the shell must not be soaked in water)
- Because dark fabrics fade easily, do not use detergents containing bleach or fluorescent agents when wiping.
- Do not use detergent excessively when there are oil stains and other stubborn stains.
- Please note that colour migration may occur due to the dark fabrics being wetted by water or friction.
- When storing, please keep it away from direct sunlight to avoid discoloration or accelerated product aging.
- Please take care to avoid sharp objects to prevent scratching in the hard shell part.

(Please read the washing and maintenance information carefully and keep it for your reference)

I BASIC PARAMETERS

Product name	PETKIT Breezy Smart Cat Carrier
Product model	P7701
Overall size (mm)	Complete device:330 x 300 x 450
Recommended pet type	Cat ($\leq 8\text{kg}$)
Complete machine weight	1.4kg
Rated voltage	5VDC
Rated power	2.5W/500mA

To provide better products, we will carry out product improvement on a regular basis.
The actual product may differ from the image on the package, which shall prevail.
