USB / Aux protective cover (removable) helps to protect the 3.5 mm Aux-In Jack and MicroUSB Connector.

WARNING!

A wet or contaminated micro-USB connector may cause excessive heat or melting and may lead to fire damage or personal injury.

Always charge your speaker with a clean, dry micro-USB connector.

To save power, ULTIMATE EARS BOOM will turn off automatically after 15 minutes without music or user interaction. ULTIMATE EARS BOOM will make a sound to let you know it is turning off.

EARS BOOM****CONNECT****POWER****SETTINGS****DOUBLE UP****MULTI-HOST****ALARM****SPEAKERPHONE****SUPPORT****Pairing your first device**

ULTIMATE EARS BOOM works with Bluetooth-enabled devices that support A2DP, such as smartphones, tablets and personal computers. When you turn ULTIMATE EARS BOOM on for the first time, it automatically goes into pairing mode and searches for a Bluetooth source device to pair with.

Pairing additional devices

To pair ULTIMATE EARS BOOM with additional source devices, press ULTIMATE EARS BOOM's Bluetooth button for 3 seconds. ULTIMATE EARS BOOM will enter pairing mode, make a sound, and flash its Bluetooth LED while searching for another device. Once the next device is paired with, ULTIMATE EARS BOOM will sound to confirm pairing and the Bluetooth LED will remain solid white for 15 seconds.

ULTIMATE EARS BOOM will remember the last 8 devices it was connected to. The next time the speaker is turned on, it will attempt to reconnect automatically to the last device it was connected to before it was turned off.

NFC

To pair ULTIMATE EARS BOOM with the NFC-enabled devices, hold your NFC-enabled phone directly against ULTIMATE EARS BOOM's NFC tag for 2 seconds. Once the pairing is successful, the

Lost your connection?

ULTIMATE EARS BOOM's Bluetooth range is approximately 15 meters, or 50 feet. If you take your source device out of range, the connection will be suspended. ULTIMATE EARS BOOM will automatically reconnect if the source device is brought back in range within 5 minutes. After 5 minutes, the active connection will be dropped.

PLAY

Once ULTIMATE EARS BOOM is on and connected, simply select and play any music content from your source device. You can control volume from your source device, or directly on ULTIMATE EARS BOOM.

BATTERY MANAGEMENT

By pressing the + and – volume buttons simultaneously, you will get a voice prompt indicating the percentage of battery left in your ULTIMATE EARS BOOM

< GO BACK

EARS

the same time to hear your battery level spoken aloud. The default language for this battery information is English. You can change this language using the ULTIMATE EARS BOOM App for iOS or Android.

[Download the ULTIMATE EARS BOOM app.](#)

Your speaker battery is recharged through a micro USB cable. For optimal battery charge, ULTIMATE EARS BOOM comes with a custom AC power supply and a micro USB adapter cable that provides additional voltage and charges ULTIMATE EARS BOOM faster.

DOUBLE UP

When you Double Up, you connect two ULTIMATE EARS BOOMs together for bigger sound. The easiest way to set this up is to use the Double Up option of the ULTIMATE EARS BOOM app. Once your ULTIMATE EARS BOOMs are Doubled Up you will be able to play to both at the same time from one phone or tablet.

After the two ULTIMATE EARS BOOMs have been synced together for the first time, they will then automatically Double Up the next time they are both powered on together. To turn this feature off, so that the speakers won't

automatically sync with each other the next time they are both are powered on, switch the 'Double Up lock' setting to 'OFF' in the Settings section of the ULTIMATE EARS BOOM app.

In the Double Up section of the app, you can choose how you would like the speakers to behave. There are two options:

< GO BACK

ULTIMATE
EARS

~~dedicated to the right. You can even define which of the two~~

ULTIMATE EARS BOOMs should be left and which should be right.

DOUBLE: In this mode, the two speakers play identical streams.
