PRODUCT SPECIFICATIONS

Item Number	ZWD-ZJ-4H3C
LED Quantity	80 pcs (24 Red & 28 Blue & 28 White)
Power	15W
Input Voltage/ Input Current	5V / 3A
Red Spectrum	620-625nm
Blue Spectrum	460-465nm
Warm White Spectrum	6000K-6500K
Working Temperature	-20°~40°
Life Time	1 year
Suitable Use Distance	0.98-3.98 ft (20-30 cm)

CONTROLLER INSTRUCTIONS

POWER BUTTON
Turn on/off

TIMING OPTIONS
4H/8H/12H

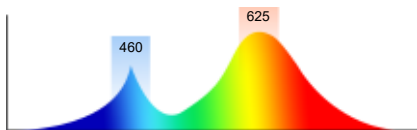

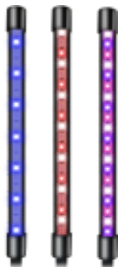

9 DIMMING LEVELS
"±"20%-100%

SWITCH SPECTRUM
red&warm white/blue/full spectrum

HOW DOES IT WORK

Good Seed starter Promote Leaf Growth Promote Flowering Promote Fruiting

Blue Spectrum

Promotes plant germination and chlorophyll synthesis and it's essential for indoor plant growth.

Red&Warm White Spectrum

Increase light intensity and enhance photosynthesis. It also helps to prolong flowering and fruiting.

Full Spectrum

Similar to the sunlight and ideal for all sorts of indoor plants at all growth stages.

TIMING FUNCTION

- 1.As plants need rest at night, it is not recommended to keep the lights on all the day, so the timing setting will be very useful.
- 2.Press the timer button to set the timer for 4/8/12 hours,the corresponding timer indicator will stay on.
- 3.And the plant light will turn on/off automatically the next day at the same time. If the power is cut off midway,the timer needs to be reset again.

HOW TO INSTALL

Step One
Open the Tripod Stand

Step Two
Anticlockwise Rotation

Step Three
Adjust Stand Height

Step Four
Adjust Light Tubes

USAGE TIPS

1. Indoor use only, not waterproof. Please do not spray water or other liquid on the lamps.
2. Avoid looking directly for a long time at the light when they are on.
3. If accidentally lose the adapter, you can buy another adapter in your area. Use standard 5V/3A adapter, otherwise it will be easy to damage the lamp.
4. Keep out of reach of children.

INDOOR PLANT MAINTENANCE TIPS

1. Don't water too much, water the soil only when it is dry and water thoroughly at once. Over watering will cause suffocate at the roots, rot, and lose their leaves.
2. The air in most houses is very dry, especially in winter, proper ventilation is conducive to plant growth. But don't blow cold air directly to avoid frostbite.
3. Sunshine loving plants should supplement sunlight in dark indoor places to promote their healthy growth.

WARRANTY

We offer 1 year warranty for all products. If you have any questions about it, please feel free to contact us when necessary. We normally reply emails within 24 hours.
