Dear SUNIL KUMAR:

Your Organic Certification for SPICY ORGANIC LLC located at 104 BUSINESS PARK WAY, STE 400 MCKINNEY, TX 75071 has been updated, and is enclosed. The certification is effective as of August 22, 2023. You must submit your next annual update and certification fees by May 31, 2024. Please review the information printed above and on your certificate carefully. You are required to notify the Texas Department of Agriculture (TDA) within 30 days of any change in the information you provided in the update of this certification.

Once certified, a production or handling operation's organic certification continues in effect until surrendered, suspended, or revoked. This certificate does not expire.

An organic certificate authorizes you to represent the products of the portions of your operation described in your organic system plan as organic, provided that they comply with all National Organic Program (NOP) Regulations related to production and handling of organic products.

An annual update notice will be emailed to you each year prior to the due date listed above. Failure to update this certificate prior to or by your due date may result in the suspension of your certification. Therefore, please respond promptly to the update notice. Continued certification is dependent on continued compliance with the NOP Regulations and successful completion of all TDA inspection processes and certification evaluations. Please note that the NOP Regulations permit unannounced inspections and residue testing by TDA.

Regulations and statutory provisions governing various department regulatory programs are located in Title 4 of the Texas Administrative Code. The NOP Regulations are located in the Code of Federal Regulations Title 7, Part 205. The TDA website provides convenient links to these statutes and regulations. Failure to comply with these laws may result in suspension or revocation of your certification and/or assessment of monetary administrative penalties.
