To Verify the Original Manufacturer Barcode

Example 1: For notebooks that have a removable battery, the serial number is located inside the battery compartment.

S/N stands for Serial Number

In this example the GS63VR 7RF-230US represents the model of the notebook, where as the US represents the region.

After the letter K in the serial, the 16 represents the year and the 11 represents the Month, For this example, this unit was manufactured on November 2016.

(Please find the model name from notebook backface)

Example 2:

For Notebook units that do not have removable battery, the serial number sticker is located on the bottom cover of the notebook.

Three steps for repairing

If you encounter any problem in product usage, we suggest you consult the following steps to quickly resolve the problem:

The User's Manual and Software CD provided by MSI containing a lot of information about product usage. The manual we compose from user's perspective can answer many of your questions. If your manual was lost, you may download the manual you need from MSI website.

MSI retains a group of customer service engineers with professional knowledge. You may post a message about the problem you encounter in MSI's Online Customer Service, and our engineers will try their best to answer

your question concerning product usage immediately. Or you may look for FAQ in the website to see whether there is any solution for similar problems.

If you cannot seek any solution for the problem from the above methods, you may seek support from the original store of purchase or distributor, because the original store of purchase should best know your system configuration and specifications, and can provide you with any necessary resource and service.

If your product has been determined by the MSI engineer or store as problematic or defective in hardware, and may incur the need for replacement of parts, you may bring the Product for repair along with the warranty card, purchase invoice or receipt to the MSI-authorized service center closest to your location for assistance, or entrust the original store of purchase to send the Product for repair on your behalf. However, the customer must properly pack the Product when sending it for repair, to avoid further damage in the course of shipping.
