

PRYSKA

«PRYSKA is an uplighter that is both powerful and energy efficient and will allow you to achieve real savings. »

LED LIGHTING

Economic and effience

LED are today more efficient than energy saving bulbs around 100Lm/W, offer the lower consumption (6W vs 11W energy saving bulbs) and the longer lifetime (40 000h vs 10 000h for enrgy saving bulbs)

INNOVATIVE PRODUCT

PRYSKA meets your needs

PRYSKA is equipped with a very efficient LED lighting. Tactile dimmer switch located on the mast makes it possible to adjust the 3 lighting intensities that correspond to different activities: working, reading, relaxing

ECO-FRIENDLY PRODUCT

Responsible purchasing

Using a wood part on the mast contributes to the preservation of natural resources and reduces your own environmental impact.

*Dimmer switch 3 intensities
on the mast*

DIMENSIONS

TECHNICAL FEATURES

Materials

- Steel with epoxy painting
- wood

Source

LED built-in*: rated power 40W

*cannot be replaced
