Warranty card included

Dear Customer

Hello, thank you very much for choosing POWEROWL products. In order to use and maintain the Coin Cell Battery Pro, please read this manual in detail.

If you receive a product that is abnormal, please contact us. We would solve the problem for you. Thank you for your understanding.

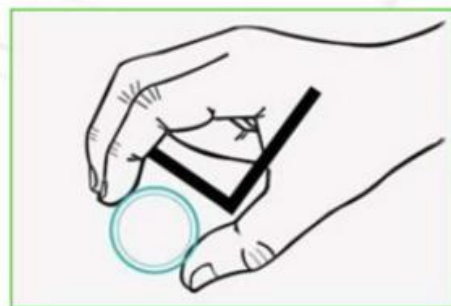

How to maintain?

1. Because the human body has the ability to conduct electricity, when installing a new battery, avoid discharging when your fingers touch the positive and negative electrodes of the battery at the same time, otherwise, it will easily cause battery power loss and affect battery life.

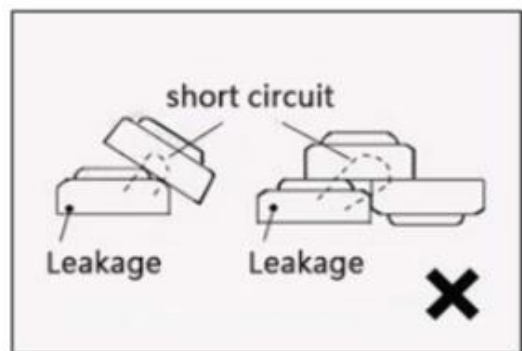

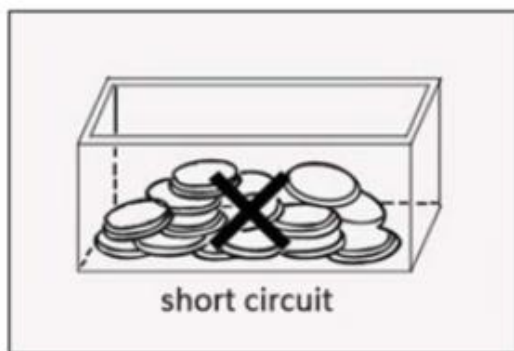

Low Power

Power Protection

2. Because the positive and negative poles of the button battery are very close when multiple button batteries are stored at close distance, it is easy to cause indirect contact between the positive and negative poles of the button battery and cause the battery to short circuit.

3. This battery is a non-rechargeable battery, charging this battery will cause battery leakage or damage to the device.

4. It is forbidden to short circuit, heat, burn and disassemble the battery

5. The positive and negative poles of the battery should be correctly.

Attention& warning

1. Do not charge the battery, as this may cause battery leakage, danger, and damage to related charging equipment
2. When installing the battery, please install the battery in the correct direction. If it is installed incorrectly, it may cause a short circuit
3. Do not short-circuit the battery, heat it, or throw it into the fire
4. Do not discharge the battery forcibly, as this may cause battery leakage or danger
5. Please try to avoid using new batteries and used batteries at the same time, and try not to mix batteries of different brands at the same time
6. Please remove the exhausted battery from the power-consuming product to avoid over-discharging the battery, which may cause battery leakage and damage the electrical equipment
7. Do not solder the battery, it will cause damage to the battery
8. The battery should be placed in a place out of the reach of children to prevent children from swallowing the battery by mistake
9. Do not disassemble the battery.

Warranty Card

Dear Customer:

Hello, if you encounter any problems with our products
please contact us at the first time
