After downloading and installing, activate the game collection by entering the code from the packaging.

### **Which games are included in the game package that I can download for the COMPETITION PRO EXTRA?**

The following 25 games are included in the package: Bomberwarrior | Chopper Destroyer | Dropsector | Karate | KLIX | Moon Jumper | Metris Blocks | Mo's Garden | Pitstart | Railracer | Rainbow Arts Peng | River Attack | Robo Dug | Seawolf III | Sokoman 5 | Summer Games | Super Drive On | Turrigan Lode Jumper | Winter Games | Yeto | Boulder match 5 | California Games | Jump Boy | Moon Battle | The barbarian

### **Can I also use these games on a Mac, an iPad/iPhone or an Android device?**

No, the games in the package can only be run under Windows.

### **I am having problems installing or playing the COMPETITION-PRO-EXTRA game package, where can I find support?**

If you have any questions about the games, please contact magnussoft at <https://magnussoft.biz/Support>. If you have any questions about the joystick, Speedlink support will be happy to help.

### **Does the COMPETITION PRO EXTRA also work on a RetroPie?**

Yes, the joystick can be configured for the RetroPie. Although more functions can be configured than the joystick has buttons, functions that cannot be assigned can be skipped if you hold down an already assigned button for approx. 1 second. This is repeated until the complete controller configuration has been completed.

### **Is the joystick compatible with the C64 mini console?**

Yes - since the firmware update of the C64 mini console to 1.2.0.

### **In which languages are the games available?**

Except for three purely German-language games, all games can be played in German and English.
