## Introductions

## Trademarks and Permissions

and other Huawei trademarks are trademarks of Huawei Technologies Co., Ltd. All other trademarks and trade names mentioned in this document are the property of their respective holders.

## Notice

The purchased products, services and features are stipulated by the contract made between Huawei and the customer. All or part of the products, services and features described in this document may not be within the purchase scope or the usage scope. Unless otherwise specified in the contract, all statements, information, and recommendations in this document are provided "AS IS" without warranties, guarantees or representations of any kind, either express or implied.

The information in this document is subject to change without notice. Every effort has been made in the preparation of this document to ensure accuracy of the contents, but all statements, information, and recommendations in this document do not constitute a warranty of any kind, express or implied.

## Features

### Power-on

Open the charging case and press and hold the Function button for 2 seconds to power on the charging case.

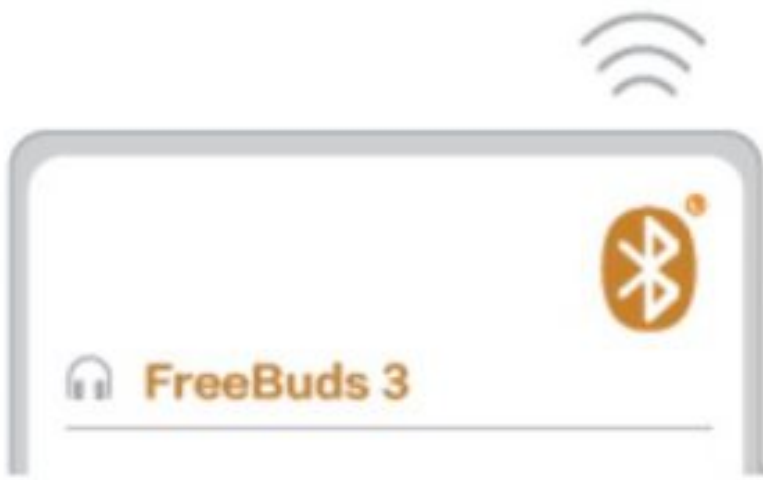

### Pairing

#### Preparations:

Ensure that the earphones are inside the charging case. Open the charging case and place your phone within 50 cm of the earphones. Bluetooth pairing: Press and hold the Function button for 2 seconds until the inner indicator light flashes white.

- Proximity pairing: When your phone screen is on, a pairing prompt will be automatically displayed when your phone is close to the earphones. Touch CONNECT to complete the one-step pairing

- A prompt will be displayed if the pairing is successful.

 **NOTE : This feature is only supported on EMUI 10.0 or later.**

#### Audio Control

- During music playback, double-tap the upper part of the right earbud handle to skip to the next song.

 **NOTE : You can set double-tap functions in the Huawei AI Life app. For details, see section 2.4 Setting Double tap Function.**

#### Active Noise Cancellation

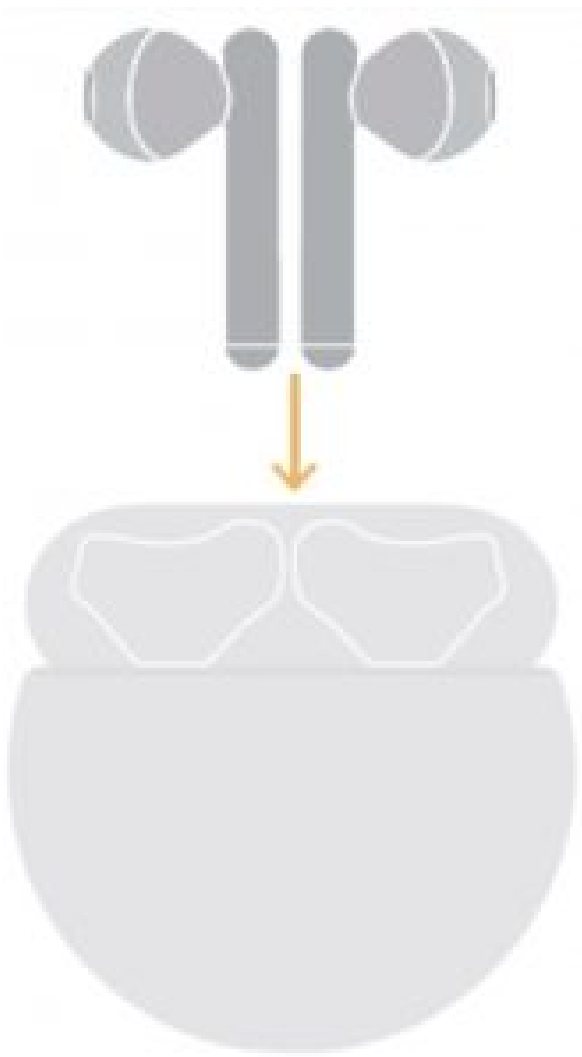

- Double-tap the upper part of the left earbud handle to enable or disable ANC mode

 **NOTE :** Use the *Huawei AI Life* app to adjust the ANC level as needed. For details, see section 2.3 **ANC Settings.**

#### **Charging the Earphones**

To charge the earbuds, place them in the charging case to initiate automatic charging.

### **Charging the Charging Case**

To charge the charging case, use a Type-C charger or place it on a compatible wireless charger with the back side facing up.

#### Factory Settings Restoration

- If the earphones fail to connect, play no sound, or cannot be found when searching on your phone, restore the earphones to their factory settings for troubleshooting:
- Ensure that the earphones are inside the charging case, open the case, and press and hold the Function button for 7 seconds until the inner indicator light flashes red. When the indicator light flashes white, the earphones have been restored to their factory settings, and they will then enter Pairing mode.

#### Indicator Lights

- Inner indicator light

**State****Description**

Turns green	The battery level of the earphones is higher than 60%.
Turns yellow	The battery level of the earphones is between 20% and 60%.
Turns red	The battery level of the earphones is lower than 20%.
Flashes white	The earphones have entered Pairing mode.
Flashes red	The earphones have been restored to their factory settings.

- Outer indicator light

**State****Description**

The charging case is being charged	Turns green	The battery level is higher than 90%.
	Turns yellow	The battery level is less than 90%.
The charging case is not being charged	Turns green	The battery level is higher than 60%.
	Turns yellow	The battery level is between 20% and 60%.
	Turns red	The battery level is lower than 20%.

**More Functions****Installing the Huawei AI Life App**

Use the browser on your phone to scan the QR code or use Huawei AppGallery to download and install Huawei AI Life. Pair with FreeBuds 3 and add it to the device list. You can then use the app to adjust the ANC level, set double-tap functions, and perform firmware updates when a new version is available.

### Adding FreeBuds 3 to the Device List

#### Preparations:

- Download and install the Huawei AI Life app. For details, see section 2.1 Installing the Huawei AI Life App.
- Pair the FreeBuds 3 with your phone, or ensure that your FreeBuds 3 are in Pairing mode (to do this, press and hold the Function button for 2 seconds).
- Your phone is already connected to a Wi-Fi network.

**Step 1 :** Open the Huawei AI Life app, touch the + icon in the upper right corner, and touch Add device. The app will automatically scan all devices in the Wi-Fi network.

**Step 2 :** In the list of scanned devices, find the earphones' device name and touch CONNECT on the right side to add this device.

## Scanning...

Make sure that the device is plugged in and located near your phone.

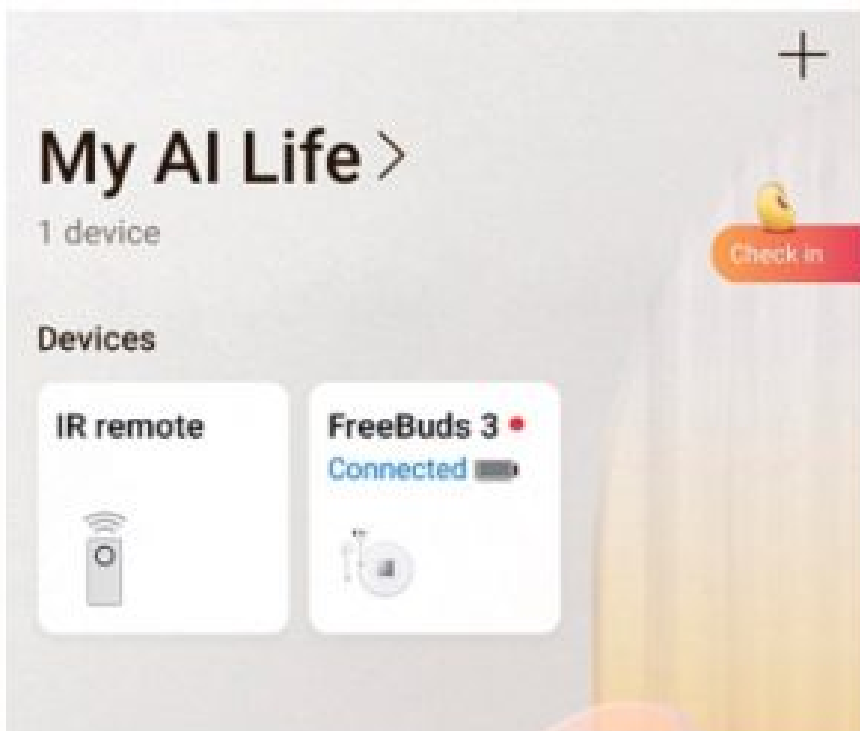

Paired devices

FreeBuds 3 CONNECT

ADD MANUALLY

SCAN

- Go to the home screen of the AI Life app, touch Home to view the added devices, and use the app to adjust settings for the devices.

### ANC Settings

#### Preparations:

- Download and install the Huawei AI Life app. For details, see section 2.1 Installing the Huawei AI Life App.

- Add FreeBuds 3 to the device list in AI Life. For details, see section 2.2 Adding FreeBuds 3 to the Device List.

**Step 1 :** Open the Huawei AI Life app. Go to the home screen of the app and touch Home to add FreeBuds 3 to the device list.

**Step 2 :** Touch Noise cancelling to see more details.

## ← Noise cancelling

### Noise cancelling

Block out external noise for better sound quality.

**Step 3 :** Then enable Noise cancelling.

**Step 4 :** Move the blue dot on the dial to adjust the ANC level to a more comfortable level.

## ← Noise cancelling

### Noise cancelling

Block out external noise for better sound quality.

Adjust noise cancelling

Note :

1. The effectiveness varies by person. Adjust how active the noise cancelling is above.
2. Noise cancelling may affect your ability to respond to your surroundings. For safety reasons, it's recommended to disable it when working out, running, or in busy environments.

**Setting Double-tap Functions**

**Preparations:**

- Download and install the Huawei AI Life app. For details, see section 2.1 Installing the Huawei AI Life App.
- Add FreeBuds 3 to the device list in the AI Life app. For details, see section 2.2 Adding FreeBuds 3 to the Device List.

**Step 1 :** Open the Huawei AI Life app. Go to the home screen of the app and touch Home to add FreeBuds 3 to the device list.

**Step 2 :** Touch Shortcuts.

**Step 3 :** Set the double-tap functions for the earbuds as needed.

## ← Shortcuts

### Double-tap left bud

Play/Next

Play/Pause

Wake HiVoice

Enable/Disable noise cancelling

None

### Double-tap right bud

Play/Next

Play/Pause

Wake HiVoice

Enable/Disable noise cancelling

None

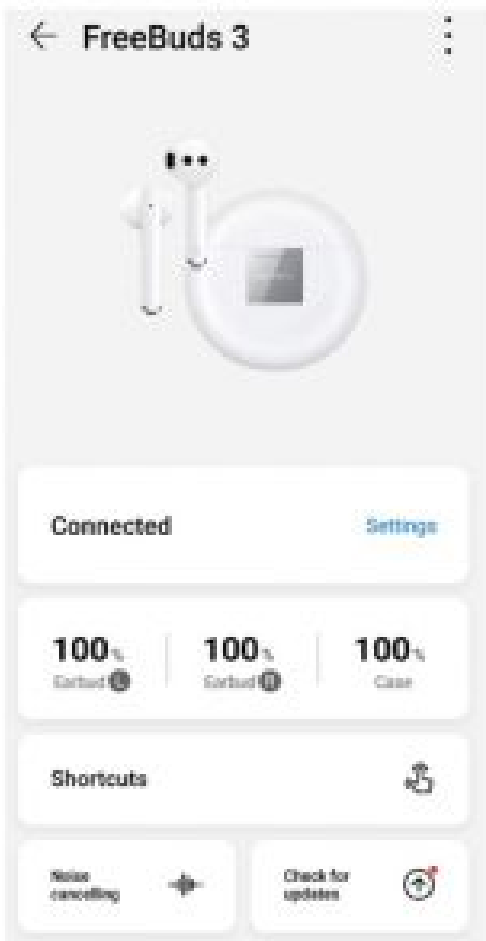

## Software Update

### Preparations:

- Add FreeBuds 3 to the device list in AI Life. For details, see section 2.2 Adding FreeBuds 3 to the Device List.
- Pair the FreeBuds 3 with your phone, or ensure that your FreeBuds 3 are in Pairing mode (to do this, press and hold the Function button for 2 seconds).
- Your phone is already connected to a Wi-Fi network.

**Step 1 :** Open the Huawei AI Life app. Touch Home, and select the device FreeBuds 3.

**Step 2 :** Touch Check for updates.

- The current version will be displayed if a new version is not available.

**Your version is up to date.**

Current version  
1.0.0.106

UPDATES

- An update prompt will be displayed if a new version is available.

← Updates

**New version available**

New version  
1.0.0.008 1.76M

What's new

- 1. Improves call quality.
- 2. Improves system stability.

UPDATE

1. Touch UPDATE.

← Updates

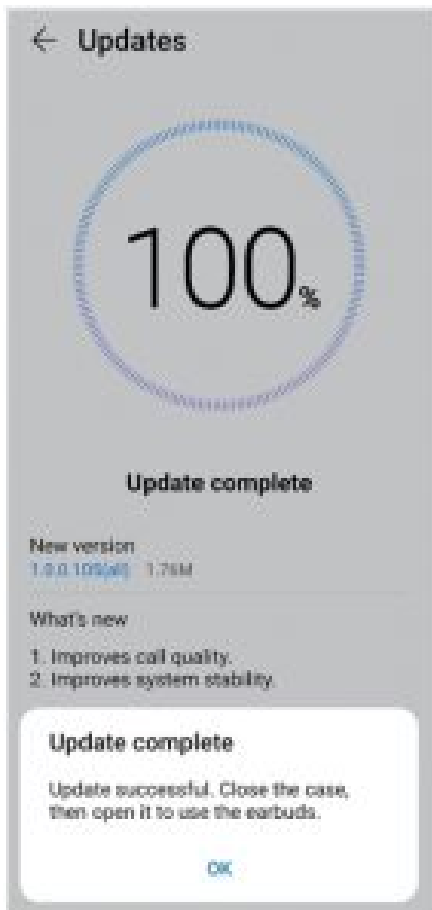

**New version available**

New version  
1.0.0.008 1.76M

What's new

- 1. Improves call quality.
- 2. Improves system stability.

2. Touch OK when the update is complete and perform the operations as prompted.
