All Cubo Ai Plus come with one year of Cubo Ai Care Premium included, which begins when the hardware and software of the product is paired. Do not pair your product until you are ready for the subscription period to begin. At the end of the first year after the product is paired, you may manually renew your subscription at the then-current price. Current prices can be found above. If a customer does not want to use the Cubo Ai Care Premium included in its purchase, the customer can contact customer support to cancel the subscription, however by cancelling the included subscription, the customer is voiding the subscription and will need to pay the then-current price if customer chooses to re-activate in the future.
