⚠ WARNING:
This product can expose you to chemicals including lead, which is known to the State of California to cause cancer, and Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

To maintain the performance of your air purifier, **only** use official Levoit filters. For more information, contact **Customer Support**.

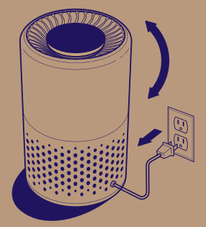

Safety Information

Follow all safety guidelines.
Read all instructions before using.

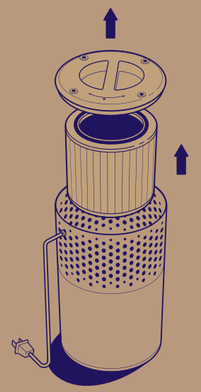

- **Do not** allow children to play with the plastic packaging. Immediately discard the plastic after unwrapping the filter.
- A damaged filter may not properly filter air. If your filter is damaged, contact **Customer Support**.

Note:
- *The filter should be replaced every 6–8 months.*
- ***Do not** clean the filter with water or other liquids.*

Replacing the Filter

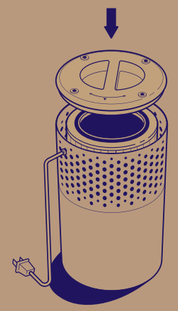

1 Unplug the air purifier and flip it over.

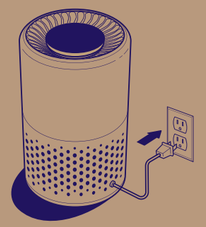

2 Remove the filter cover and the old filter.

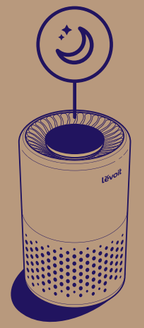

3 Unwrap the new filter and place it into the housing.

4 Replace the filter cover.

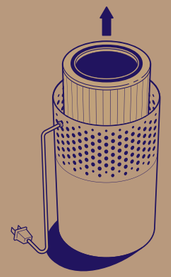

5 Plug in the air purifier and turn it on.

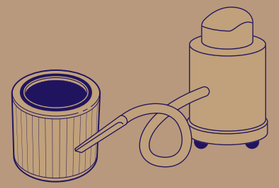

6 Press and hold for 3 seconds to reset the Check Filter Indicator.

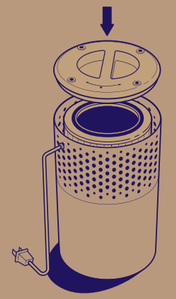

Cleaning the Filter

1 Remove the filter.

2 Remove dust, hair, and large particles from the outer layer with a soft brush or vacuum hose.

3 Replace the filter.
