walimex pro Sirius 160 B-LED Basic 2 No. 21043

21043

Product features:

2 x LED Sirius 160 Bi-Color with two tripods in Set

LED Sirius 160 B- LED

High-quality LED light with> 5000 lumens

160 LEDs, each with 0.4W

Color temperature 3000K - 5600K (± 200 K)

Color rendering index> 90-93

Infinitely dimmable

Ideal for video and film, portrait and product photography

Diffuser panel with two wing gates

LED lifetime about 50.000 hours.

Illumination angle 120 degrees

Lightness

Aluminum housing

walimex pro Lamp Tripod FT-8051

Max. Extension length 260 cm

Max. Load Capacity approx 4 kg

walimex pro Sirius 160 B-LED Basic

walimex pro Sirius 160 B-LED Basic with power-saving light-emitting diodes for use in photography, and in the videography. With a very high illuminance, a flexible range of intensities and the robust metal housing the walimex pro Sirius 160 B-LED Basic is perfect for on-location and studio, whether in the photo or video area. The lifetime of the LED with 50,000 hours compared to fluorescent daylight solutions higher multiples

Bi- Color

The Fluorescent Light has 160 LEDs, which is similar to daylight, provide approximately 5600 Kelvin for authentic light. The color temperature can be freely adjusted by approximately 3000K- 5600K. This allows a wide illuminance of about 5,000 lux reach a distance of one meter. The extremely wide viewing angle of 120 degrees results in a uniform and homogeneous illumination. All LEDs are carefully considered in a selection process and selected, thus is the perfect color balance for each light guaranteed. The high CRI of over 90-93 enables an exact color reproduction.

Wing gates, metal

In order to accurately control the light direction and to respond flexibly to different lighting moods, at the light Sturdy metal doors are fitted, which effectively influence the radiation behavior. The fixed diffuser ensures soft and authentic light.

Mounting on tripod

Mounting is via a conventional standardized Spigotanschluss, thus the light on each photo & video -. Be tripod mounted lamp.

Power Supply

Power is supplied directly via the enclosed power supply

Scope of supply:

2x walimex pro Sirius 160 B-LED, power cord, Befestigunsstrip for battery
2x walimex pro Lamp Tripod FT-8051, 260 cm
1x walimex pro Remote Sirius

Technical specifications :

LED Sirius 160 B-LED
LED 160 LED á 0.4W
Performance in Lumen> 5000 LM
Color temperature 3000K - 5600K (± 200 K)
Colour Rendering Index CRI> 90-93
Illumination angle 120 degrees
Operating voltage 18 V device
AC power 100-240 V AC
Power Consumption 65 W
LED lifetime about 50.000 hours.
Size (LxWxD) without Holder 25 cm x 35cm x 7.5cm
Weight 2 kg
Material aluminum housing

FT-8051 lamp tripod
Max. Height approx 260cm

Min. Height approx 90cm
Transport length approx 93cm
Max. Load Capacity approx 4 kg
Weight approx 1780g
Connection 5/8 inch spigot with 1/4 and 3/8 inch thread
Material aluminum, plastic (fasteners)
