

Biltwell Glove Sizing Guide

The best way to get gloves that fit well is to try them on. If that's not an option for you, we've created this sizing chart as a reference. Here's how to measure your hand:

Width: Measure across your palm at the widest point (generally just below the knuckles)

Length: From tip of your middle finger to bottom of palm

Compare these measurements with the chart below. If you are in between sizes, we recommend going with the larger size for the best fit.
