

# LED Patio Umbrella

## User Manual

**Note:** This user manual is generic for different models. Please kindly note that the pattern, color and size might vary accordingly.

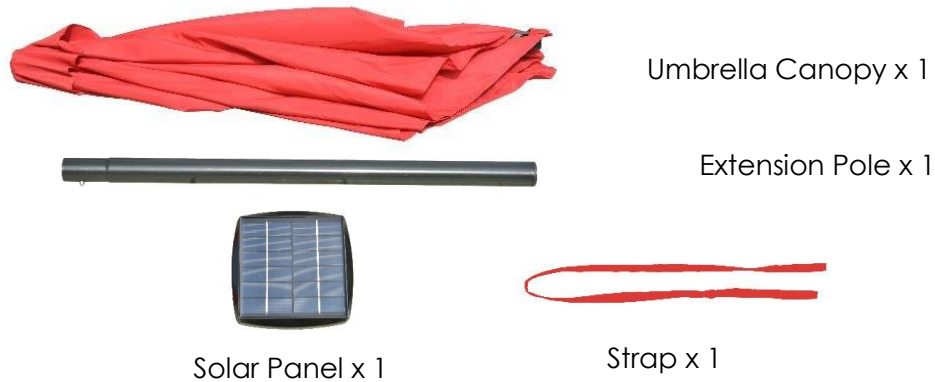

### Safety Instructions

1. Use the umbrella in a wide-open area.
2. When adjusting or opening the umbrella, make sure that no person is around for safety concerns.
3. Always close and put away the umbrella on windy days.
4. Keep the umbrella away from fire or other heating source.
5. Children are not supposed to operate the umbrella unless sufficient supervision is provided by adult.
6. Always open the umbrella by turning the crank.
7. It is highly recommended that the setup of this umbrella should be carried by at least two people.
8. Turn off the power button and disconnect the solar panel before using the solar panel for charging. To charge, place the solar panel under sun light for 6 to 7 hours. Ensure the sun light is sufficient or the battery in the solar panel is not fully charged.
9. When setting up, opening and closing the umbrella, please use caution to avoid risk of pinching hand.
10. Exercise caution when opening or closing the umbrella to avoid risk of scratching hand.

<b>Adaptor Voltage</b>	5 V, 1 A
<b>Power</b>	1.2 W
<b>Color Temperature</b>	6,000 to 6,500 K
<b>Net Weight</b>	14.9 Lbs (6.75 kg)

## Package Contents

## 1 Set up the Umbrella

1. Connect the wire on the top of the canopy to the corresponding **4-pin socket** on the solar panel as shown (Fig.1).
2. Then install the solar panel on the top of the canopy and rotate it clockwise to secure (Fig.2).
3. Connect the extension pole to the umbrella canopy. Ensure that the node on the extension pole locks with the corresponding hole (Fig.3).

## 2 Rotate Crank Handel to Open

Rotate the crank handel clockwise to open the umbrella.

**3** Change the Angle

Press this button and change the angle

**4** Turn on/off the Lights

Button

Press this button to turn on/off the lights.

## 5 2 Ways to Charge the Solar Panel

This side up

1. Charge the solar panel under sunlight **while turning off the LED lights.**

Micro USB Port

2. Utilize the Micro USB port on the solar panel to charge the umbrella. It takes 4 hours to charge the battery fully and it could last for 5 hours.

**Please note that the USB port is only applicable to Micro USB charging cable.**

## 6 Close the Umbrella

Use strap to secure

When the umbrella is not in use, close it and use the strap to secure the closing.
