# Assemble Instructions

sample model

1. For Phones, attach the phone mount to the tripod.

2. For cameras with standard 1/4 screw interface, attach the camera directly to the tripod head.

3. For sport camera like GoPro, use the included two adapters.

For 2.25-3.75 inch Phone

For Digital Camera

For Sport Camera(Free Camera Screw Included)

# FAQs

## 1. Can I **record video** with the remote?

Yes, you can. To make video with the remote, first toggle the power button on (located at the side) and pair the remote with your cell phone (device - ubeesize), then switch your camera app into video mode, that way you can start video recording by just clicking the button, click again to stop video recording.

## 2. What kind of **battery** does the remote use?

If you want to replace the battery, you can search and buy cr2032 3v lithium battery.

## 3. Can it **face downwards**?

Yes, please adjust the screw on the tripod head and rotate the phone holder to make it face downwards.

## 4. Can it be used with the phone in **portrait orientation**, not just landscape orientation?

Since there is an opening for the ball head cradle with which you can tilt down your cell phone 90 degrees for portrait mode.

# FAQs

5. Can I use the phone mount on other tripods?

Yes, you can, as long as the tripod has a standard 1/4 screw mount interface.

6. Does this tripod work with iPhone X?

Yes, the phone holder is spring loaded and expands up to 3.75", it fits all iPhones. And the remote can be paired with all iPhones and most Android smartphones.

7. How does the camera adapter work?

The camera adapter you received with the package is for sports camera like GoPros. For other cameras like a digital camera that has standard 1/4 screw, you can just attach it into the tripod, no adapter necessarily.

8. What is your warranty?

Please know UBeesize provides lifetime money back/replacement service for all products, if you have any question that there is anything missing, broken, incorrect, different than you expected, please just contact us and we will try our best to resolve for you timely.

# How did we do?

Good?

That's great! Please take some time to leave us good feedback, it really helps our business and also offer some insight for future customers .  
Thank you very much!

To support us and leave a product review:
