VACUUM INSULATED STAINLESS STEEL CARAFE ASSEMBLY & USE

Hinged Lid:

Image for reference only: Actual product may vary.

1. Lift lid (A) by pressing on the hinge lever (A1).
2. Wash all parts. See General Care section for washing instructions.
3. Before filling, open lid (A) all the way. Fill container with contents. Do not overfill: Leave space for the lid (A) to avoid overflow.
4. To pour, securely grip handle (B) and press and hold hinge lever (A1). Hinge lever (A1) must be held while pouring to ensure easy flow of contents.
5. Tilt product and pour contents through spout (A2).
6. Bring product to an upright position and release hinge lever (A1).
7. To close, press down on the lid (A) into the lid opening until the lid (A) is secure. Hinge lever (A1) may need to be adjusted to better align the lid and lid opening.

GENERAL CARE

- Before first use, and as soon as possible after each use, rinse all parts with warm, soapy water. Rinse thoroughly with fresh water and allow time to dry. Store with stopper off.
- Contents should not be left in the container for longer than 24 hours. As soon as possible after each and every use, wash all parts with warm, soapy water. Rinse all parts thoroughly with clean water. Allow all parts to dry completely prior to next use or storage.

- DO NOT use abrasive cleansers or scrubbers to clean outside of product since they may dull finish.
- DO NOT use bleach or cleaners containing chlorine on any parts of product.
- HANDWASH ONLY - this product is not dishwasher safe.
- DO NOT immerse or soak in water for prolonged periods of time. Residual liquids, foods, or other contents may become trapped between product components, such as lid parts, container parts, gaskets (flexible band around lid and/or stopper), or straws (if present in the product). Hand washing is recommended to ensure that all parts of the product are thoroughly cleaned.
- For maximum thermal efficiency, preheat or pre-chill the product just prior to use. Fill with hot/cold tap water, attach lid, let stand 5 to 10 minutes and empty water. After filling container with contents, re-cover with lid to increase thermal efficiency. Never use a microwave, conventional oven, or other heat source for this purpose.

WARNINGS

- DO NOT use product in microwave, on a drip coffee maker, on stove-top, or in any type of oven.
- NOT RECOMMENDED FOR USE BY CHILDREN: Keep out of the reach of children, especially when product contains hot contents, which may burn or scald user.
- Always test temperature of contents before consuming.
- DO NOT drink directly from container.
- DO NOT overfill the container: Leave space at top of container for lid and stopper (if present), to avoid overflow. Hot contents may burn or scald user if overflow occurs.
- DO NOT fill with thick liquids, such as soups, as these will block the spout and render the product inoperative.
- Check periodically to make sure any gasket (flexible band around lid and/or stopper) is present and properly positioned to prevent contents from passing through lid when lid is closed (if applicable to product). Missing, worn or misaligned gasket may cause product to leak. Leakage of hot contents may burn or scald user.
- In general, contents should not be left in the container for longer than 24 hours. However, the rate at which contents spoil depends on several factors. Certain contents that include, for example, dairy and/or tomato may start to spoil sooner. Proceed with caution when using the product with quick spoiling contents.
- If contents are left in the container longer than 24 hours, or you suspect spoilage, use caution when opening the container. Contents spoilage can cause pressure inside the container to build, possibly leading to the forceful ejection of the stopper or contents. In such circumstances, before attempting to open the container, ENSURE THE OPENING IS POINTED AWAY FROM THE USER OR OTHER PERSONS TO AVOID INJURY.
- DO NOT use tools or devices to force container to open.
- If you are unable to open container by hand, do not open it and dispose of it at your local waste facility.
- DO NOT use to store or carry carbonated drinks or dry ice. This may cause lid/stopper and contents to eject forcefully or leak.

- This product is "FOR TABLE TOP USE ONLY"; DO NOT use this product to transport liquids on-the-go as it may leak if not maintained in an upright position.

LIMITED WARRANTY

Thermos L.L.C. warrants this alfi™ product to be free from defects in material or workmanship for five years from date of purchase. This warranty does not cover ordinary wear and tear or color fading, or any condition affected by abuse, neglect, alteration, accident or improper use or maintenance.

We will, at our option, repair or replace any product component part that fails to conform to this warranty within 30 days after its receipt by our factory service department. IN NO EVENT WILL THERMOS BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES.

Some jurisdictions do not allow the exclusion of incidental, consequential or special damages, so the preceding exclusion may not apply to you.

This is a factory guarantee.

Please do not return this product to the retailer.

Send defective unit or component along with written explanation of defect directly to:
