

Safety Instructions

Read and follow all the safety instructions:

- The bulb is not waterproof. Avoid exposing it to splashing or dripping water.
- The operating temperature should be within -10° to 45°C (14° to 113°F).
- The bulb's internal light source is unfixable. If it breaks, you must replace the entire bulb.
- Do not allow children to install the bulb alone.
- Do not install the bulb with a dimming driver.
- Avoid installing the bulb near heat sources.
- Avoid installing the bulb near potentially dangerous sources (e.g., candles, liquid-filled objects).

Introduction

The Bluetooth LED Bulb is a colorful light source with an excellent music sync and group control feature.

Govee Home App

For FAQs and more information, please visit: www.govee.com

c. Ensure your smartphone is in close range of the device when connecting for the first time;

d. If connections issues persist, delete the connected bulb from "My Devices." Then, reconnect the bulb to Govee Home following the instructions provided previously.

2 The bulb lost connection.

a. Check whether the device is powered on.

b. Ensure the distance between the smartphone and the device does not exceed 50ft.

c. If the bulb continues to lose connection, delete the connected bulb from "My Devices." Then, reconnect the bulb following the instructions provided previously.

3 I cannot turn on MIC mode.

Allow Govee Home to access your smartphone's mic when first attempting to use MIC mode.

Note: Govee Home will never use, record, or share your personal information.

4 How do I create a new scene on the Govee Home app?

a. Go to "My Devices" and select "Scene".

b. Tap the "+" icon at the top right corner to create a new scene.

Note: Select different classes based on your needs.

5 What is the maximum number of devices I can connect via Bluetooth?

Typically, up to 6 devices can be connected via Bluetooth.

Note: The number of connected devices may vary based on your smartphone brand.

6 Does the bulb work with Alexa/Google Assistant?

No, the bulb does not support voice control. If you require a bulb with voice control, check out our Govee Wi-Fi LED bulb on Amazon.

FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

la distance entre l'utilisation et l'appareil ne doit pas être inférieure à 20 cm.
