purity | PURITY AIR Air Conduction Headphones

HOW TO WEAR

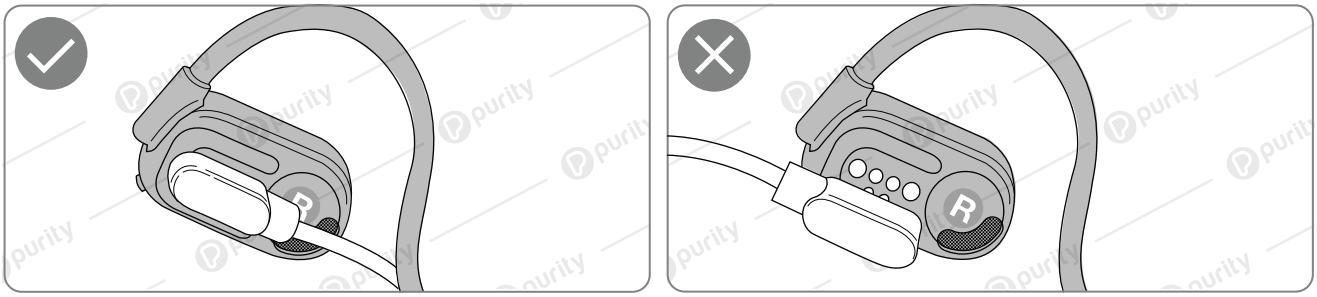

1. Hang the headphones behind your neck with both speakers clinging to your ears.

2. Gently push the speakers into the center of your ears. Adjust the headphones until you feel comfortable.

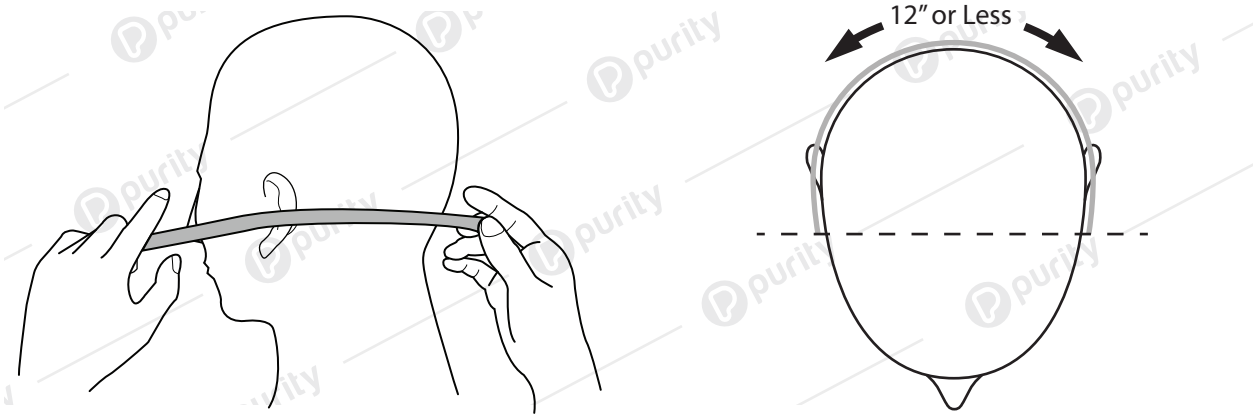

HOW TO CHARGE

1. Connect the magnetic charging cable to the charging points located on the inside of the right speaker.
2. Make sure the pins and terminals are in contact. There's only one correct orientation. The LED indicator will be solid red when it is charging.
3. The LED indicator will be solid blue when it is fully charged.

HOW TO MEASURE

The back half-circumference of the head should not exceed 12 inches.

FAQ

What is open-ear technology?
A new category of headphones that combines the best of traditional in-ear headphones and over-the-ear headphones.

Can I wear the Purity Air when taking shower?
No. Although Purity Air Open-Ear Headphones has a water-resistance rating of IPX5, you still cannot wear it when taking shower.

What is Environmental Noise Cancellation?
ENC (Environmental Noise Cancellation) is for you to hear who you are talking to. ENC uses two microphones, and noise reduction technology, but this is done in favor of the person on the other end of the call.

What's the difference between the regular version and the limited edition?
The specifications of the headphones are the same. However, in the limited edition version, you will find our selected patterns and the Purity Logo on the inside of the left headphone.
