

Matador®

Garage Door Insulation

UNIVERSAL KIT FOR STANDARD 8' & 9' PAN STYLE GARAGE DOORS

GET MORE FROM YOUR GARAGE™

Don't let the summer heat or winter cold lock you out of your garage. Now you can enjoy year-round use by installing Matador® Garage Door Insulation. It easily transforms your garage space into a workshop, rec room or exercise area - all in less than one hour. Why should cars be the only ones enjoying all that space?

Complete installation takes less than one hour, with no special tools required!

1 Measure each panel frame

2 Carefully cut each panel to size

3 Flex panel and snap into position

BENEFITS

- Easy to install
- Helps keep your garage warm in the winter and cool in the summer
- High impact polystyrene laminate provides an easily washable surface that gives your garage a finished and attractive look
- The panels are made with the same OEM-grade product used by garage door manufacturers, giving your garage identical performance and appearance as a pre-insulated door
