

Quick Setup Guide

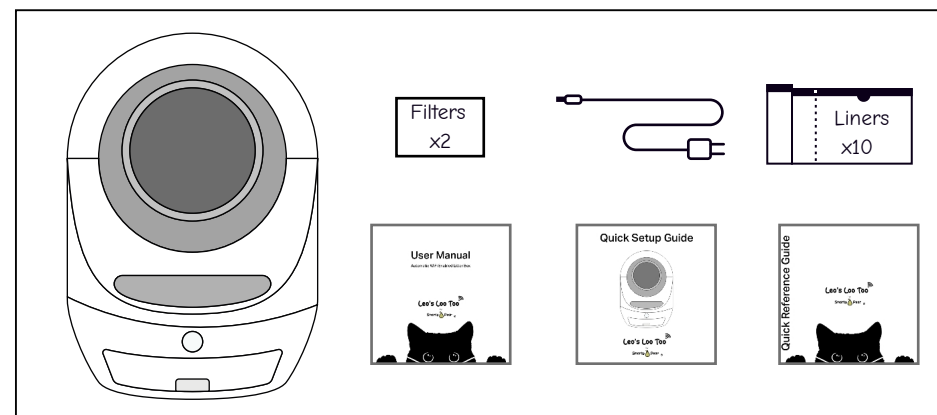

Leo's Loo Too 
Smarty Pear 

STEP 1: Place on Solid Surface

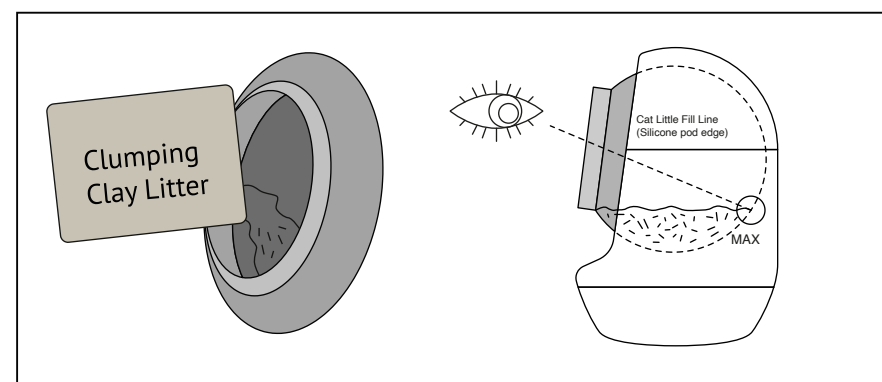

Please note product registration info located at the bottom of device before starting. We recommend taking a picture for your records. Place your device on a solid surface (NO carpets) to ensure sensors function properly. Keep a minimum of 1" from walls and furniture.

Contents

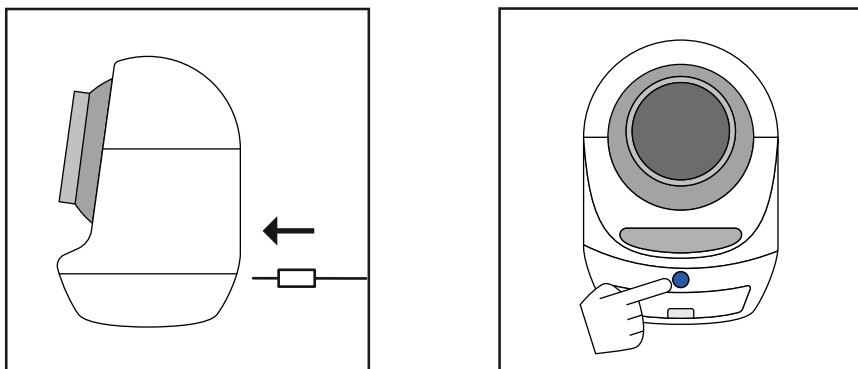

- Power Adapter with 6' Anti-Chew Cord
- Drawstring Waste Drawer Liners (x10)
- Charcoal Air Filter (x2) - Pre Installed Beneath Drawer
- Quick Setup Guide
- Quick Reference Guide
- User Manual

STEP 2: Add Litter

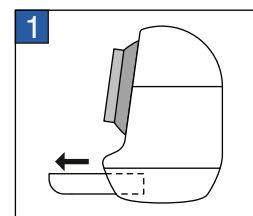

Add up to 2.2 gallons (10.0 L) / 13 pounds (5.9 kg) of litter. ONLY use clay clumping litter. Do not fill beyond the MAX indicator sticker. Overfilling will cause excess litter to dump into the waste drawer.

STEP 3: Power On

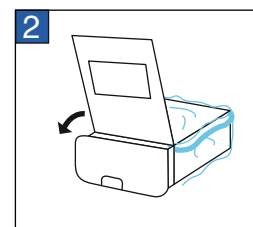

Plug your Loo into a power outlet then press the POWER button for 2 seconds to turn on. The inner drum will rotate a full circle and the light will flash. Please wait patiently.

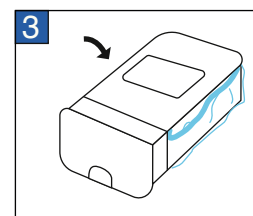

STEP 4: Prepare Waste Drawer

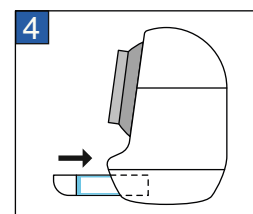

Remove the litter drawer and lift the top cover.

Spread the waste drawer liner bag evenly inside and smooth out all edges.

Return the drawer cover and make sure the edges of the liner are smooth.

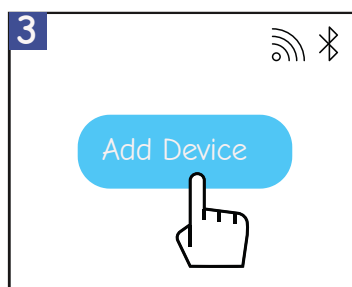

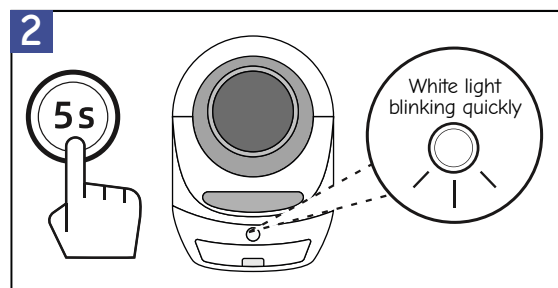

Insert drawer back in.

STEP 5: Pair with App

Scan the QR code to download the app. Create an account and sign in.

Long press the POWER button for 5 seconds. When you hear 3 beeps, the Loo is in pairing mode.

In the app, click on "Add Device" or select "+" in the top right corner. The app will display available devices. Select the Loo you'd like to pair with. See video tutorial.

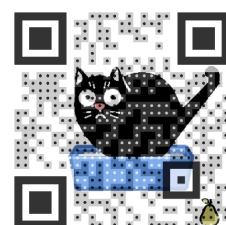

VIDEO TUTORIALS

Getting Started

Please view this instructional video on how to pair your Leo's Loo Too with the Smarty Pear App.

Acclimating Kitty

Please view this instructional video on how to acclimate your kitties.

Monthly Cleaning

Please view this instructional video to see how to clean your Leo's Loo Too. We recommend a complete litter and filter replacement and thorough cleaning on a monthly basis.
