

Twist & Shout™ Rod Instructions

Two people are recommended for the installation of this product. For safety, please use a step ladder.

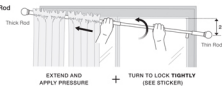

1. Apply Drapery

2. Unlock Rod

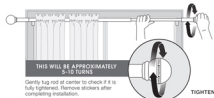

3. Extend + Lock Rod

4. Push Up

5. Tighten

STYLE TIP FOR GROMMET PANELS:

If using grommet panels, apply panels as shown below during step 2.

Once rod installation is finished, apply end grommets over finish as shown.

Optional: For heavier drapery, you may choose to use the provided screws in the bracket ends. Sizes 48" - 84" may require use of provided rod support.

ROD SUPPORT 48" - 84" ROD

OPTIONAL SMALL BRACKET SCREWS

MOVING & RE-ADJUSTING:

If you used the optional screws provided, remove them before re-adjusting. While one person holds the left side, loosen the right bracket final by twisting it towards you until it cannot rotate any further. Unlock the rod by twisting towards you. Repeat installation steps starting at step 2.
