

Insta360 App RTMP Streaming Tutorial (to Facebook/Youtube)

Sicenario 1: Facebook cannot live

Step 1: Open Facebook, click on Home, and go to the 'Live' section.

Step 2: You can create a live stream room on this page.

Step 3: Choose 'Software Live' and copy your 'Stream Key' and 'URL'.

Paste the stream key after the URL to form an RTMP URL that looks something like:
rtmps://live-api-s.com:443/rtmp/FB-xxxxxxx

Select a video source

Webcam Streaming software

Streaming software setup
Copy and paste the stream key into your streaming software.

Stream key
FB-648355450387880-0-AbwixW7mf88S118p Copy

Advanced settings

Persistent stream key
This can be re-used every time you go live. You can only broadcast one live video at a time with your persistent stream key. ☐

Backup stream
Once a backup stream is added to your live video, it cannot be removed. It will not affect your stream if you choose not to use it. ☐

Server URL
rtmps://live-api-s.facebook.com:443/rtmp/ Copy

Add post details

Share to story
Your live video will also be added to your story. ☐

Title (optional)

Description

Step 4: Paste the above `rtmps://live-api-s.com:443/rtmp/FB-xxxxxxx` into the app's live streaming field, click 'Start Live', and you will be able to begin streaming on Facebook.
