USER'S MANUAL

Bluetooth Wireless Number Pad

User Manual

Features:

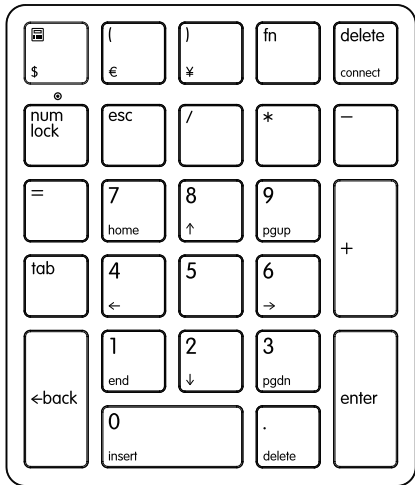

1. Bluetooth wireless connection
2. 26-key number pad
3. with Calculator shortcut
4. Scissor keys for quiet and comfort
5. Slim and portable
6. USB C cable charging
7. with Rechargeable battery, charging time: 2 hours

System Compatibility:

Bluetooth number pad works with most Windows PCs and laptops.

Packaging Includes:

1. Numeric Keypad*1
2. USB C charging cable*1
3. User manual*1

How to charge:

- 1.The number pad comes with a built-in rechargeable lithium battery. Before you use it for the first time, make sure it is fully charged.
- 2.When the status indicator in the top left corner flashes fast, it means the battery is low and needs to be charged.
- 3.To charge the number pad, connect it to a computer or charger using a USB C charging cable.
- 4.Charging time is ≤ 2 hours.

How to use:

- 1.Switch on the power.
- 2.Hold “Fn+Delete” for 5s until the Numlock light flashes. The number pad is ready to pair with Bluetooth.
- 3.Turn on Bluetooth search on your computer, phone, or other device.
- 4.Choose “Wireless Numeric Keypad” from the list.
- 5.Wait for the connection to be successful. (Note: If it doesn't work, try pairing again.)

Instruction for using the Fn key combination:

To get currency symbols \$, €, ¥, press Fn and these keys.

Power-saving function:

The keypad will sleep automatically after 60 minutes of inactivity to save battery.

To use it again, press any key and wait 3~5 seconds to wake it up.

Note:

- 1.On iOS and MacOS, some keys are not compatible, such as calculator, numlock, Home, ↑, PgUp, ←, →, End, ↓, PgDn, Insert, Delete, \$, €, ¥, etc. but other keys and numbers work fine.
- 2.This keypad uses the ANS|US layout. Some keys may not work on the European ISO or Japanese layouts.
- 3.On Android, some keys are not compatible, such as calculator, Insert, Delete, \$, €, ¥, etc.
