How to initialize your Imou Ranger 2 camera?

Please note this manual is only for below camera: IPC-A22EP-B

WiFi setting process：

1, launch imou life app and click "+", tap "add manually" and choose the correct model: **Ranger 2-B.**

2, enter the device serial number and 8 bit safety code, these information can be found from the label on the bottom of the device, then please double check the serial number on next step.

3, follow the hint and connect your mobile phone to the device hotspot (DAP-XXXXXXXXX), it will search all wifi signals around this camera, please select your home wifi signal.
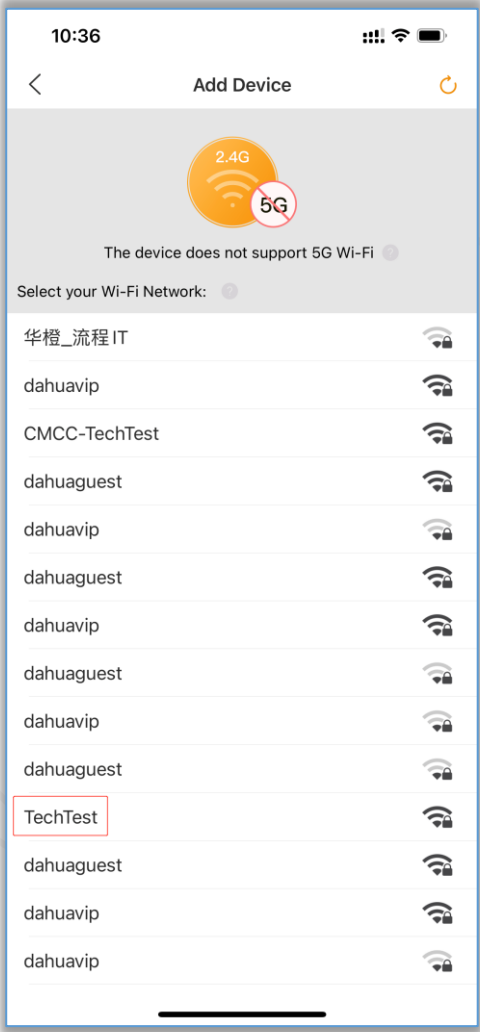

4, enter your wifi password, and click "next", then this camera will connect to imou cloud, finally bind to your imou account.
