MONTWAVE **GU Series**

High uniformity manual grinder with detachable case.

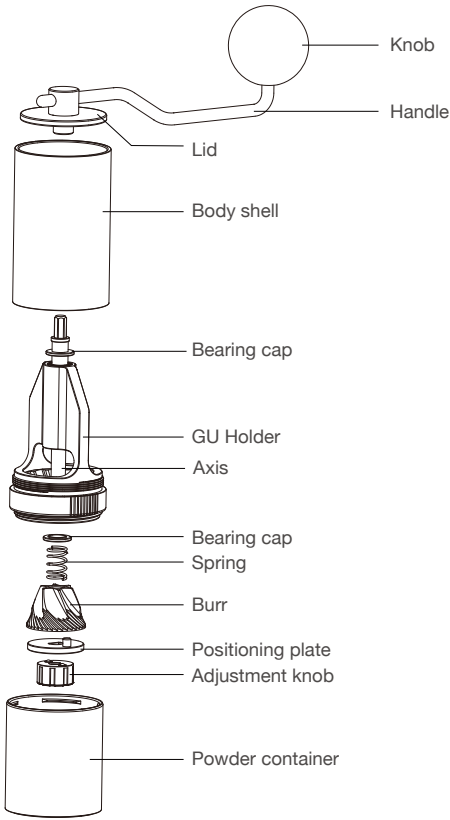

User's Guidebook

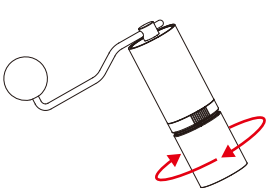

About the GU2 Hand Grinder

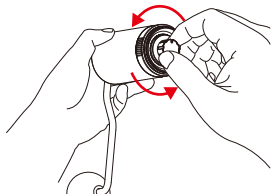

GU comes from grinding unit, our redesign of hand grinder is build on this.

With GU, You can easily disassemble the body for cleaning,
and get uniform coffee powder every time.

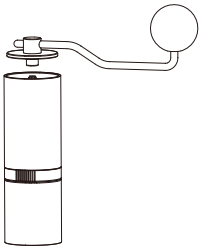

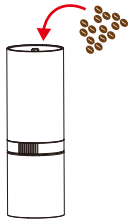

Use Product

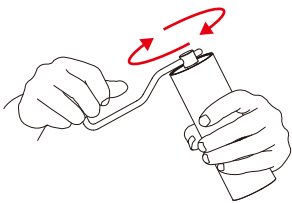

[step 1] Pull out the container. Set up coarseness by Turing the scale at the bottom of the body.

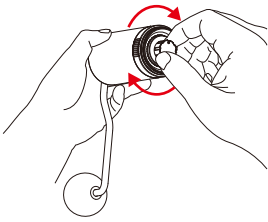

[step 2] Fasten body with the container. Then open the lid and pour coffee beans inside from the top of the grinder.(less than 25g)

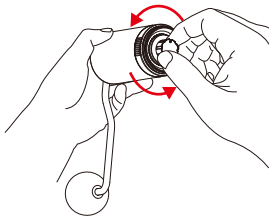

[step 3] Hold the body and rotate the handle. Pull out the container and pour the ground coffee powder.

Adjust

First, hold the body with one hand in the posture of pressing the lid/ handle, so that when the adjustment knob is turned, the center axis can remain still. And then turn the adjustment knob clockwise with the other hand to make the adjustment knob turn until it stops. Here as 0 click.

Then, starting from the 0 click, turn the adjustment knob clockwise, count the number of scales while rotating, and adjust to the click you want.

Setting Reference

Espresso coffee 8-10click

Moka pot 10-11click

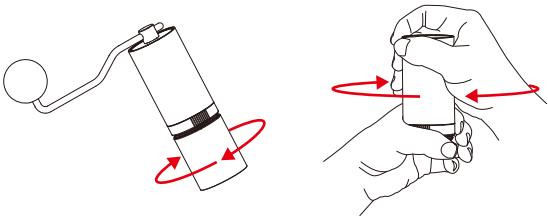

Pourover 14-18click

French Press 25-27click

- To avoid damaging the burr, please DO NOT use **0-5** click.
- The above number of clicks is for reference only and should be adjusted according to the actual situation.

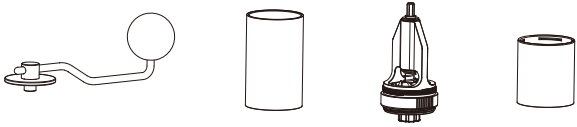

Clean the product

First, Remove the powder container by turning it clockwise, then remove the handle/lid.

Then, hold the GU Holder with one hand, and rotate clockwise with the other hand to remove the body shell.

Divide the grinder into the following 4 parts

- Then, use a brush to clean the 4 parts of the grinder.
- When assembling the body shell back onto the GU Holder, use a little pressure to ensure it is fully tightened.
- After cleaning, reassemble the grinder and store it in a cool, dry place.

Other considerations

- This grinder is specially designed for grinding roasted coffee beans, please DO NOT grind other materials.
- DO NOT Wash the grinder with water, please use a brush to clean it.
- Please try not to disassemble the parts in the GU holder by yourself. Our company is not responsible for any damage to the grinder caused by dismantling.
- The burr is very sharp, please be careful not to scratch it.
- Please DO NOT allow children to use this grinder.
- When not in use, please store this grinder in a cool and dry place.

About MONTWAVE

MONTWAVE is dedicated to designing
and manufacturing high-quality home coffee appliances.
We start the design from the underlying structure,
and continue to explore the balance
between performance and usability of the product.
At the same time,
high-quality materials and production processes
are used to manufacture products that can be used for a long time.

MONTWAVE means continuous mountains,
It is very similar to the brewing process of coffee,
It's about the art of living with stability and flow.
