The goods

Tip from the founder:

When you assemble the cart, don't be shy to really twist the tubes tight. It will make your cart feel extra sturdy & you can consider it your workout for the day.

Step 1

Heads up: You will be doing this assembly upside down, but don't worry there won't be a demogorgon. (Stranger Things reference)

Step 2

Step 3

Almost time for pizza?

Step 4

Step 5

Pop, lock but don't drop it.

Step 6

Let's test this cart out! It would be wrong to put only closed bottles on the shelf. So crack open the vino and enjoy a glass.

We really don't want you to go through the hassle of re-packaging your item and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later.

We want your bar cart to last as long as possible, so we recommend that you tighten the tubes by twisting it with your hands 2 weeks after assembly.

For added safety check the tightness of tubes every 2 months.
