

HOW TO USE

1

Smooth the nails with nail file ,
and exfoliate the dead skin
around the nails.

2

Clean the surface of the nails
with an alcohol pad, keep
them dry

3

Choose the right size that fits
your nails, peel off the protective
films of the Gel Nail.

4

Place on the finger
nails gently.

5

Use a small wood stick to press
and flatten the edges of nails.

6

Remove the excess Gel Nail
with a nail file.

7

Cure the Gel Nails for 60 seconds
to make it stronger and harder,
and more glossy.

8

Done!
Brighting & Shining!

How To Remove

1

Use the wood stick to lift gel
nail wraps off your nails.

2

Clean your nails with cotton
pads.
