

Expand your Caséta smart home

Smart lighting control adds comfort and convenience to your everyday routine. And what's not to like about that? Extend your system to other areas of your home and explore the possibilities.

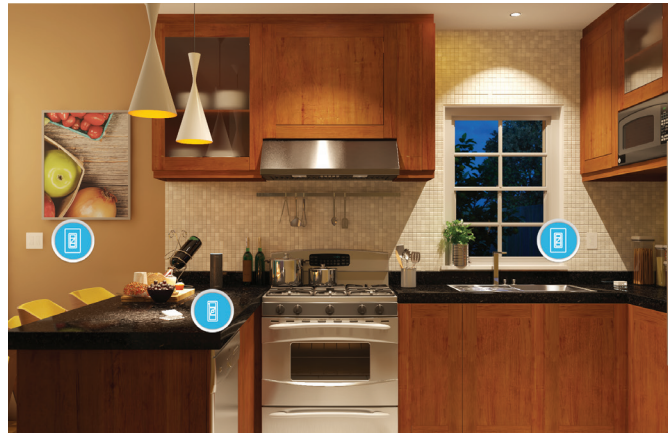

Turn lights on or off from the comfort of your bed.

Control of your lighting isn't limited to a spot on the wall. Enjoy the convenience of adjusting lights with one touch — right from your bedside.

Place Pico remotes on your nightstands to keep control of overhead and lamp lighting within arm's reach.

What you need:

- Plug-in lamp dimmers
- In-wall dimmers for overhead lights
- Pico remotes
- Pico pedestals

Set the perfect scene in the kitchen.

Make the heart of your home more practical. Control multiple lights with a remote so you always have the best light for cooking, dining, or entertaining. Or simply say, "Alexa, turn the kitchen sink light on" and let your Amazon Echo get the lights for you.

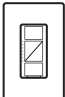

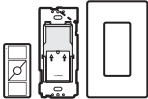

You can also use a Pico remote to control a Sonos Home Sound System. Enjoy your favorite playlist in just the right light.

What you need:

- In-wall dimmers for overhead lights
- Pico remote for lights
- Pico remote for audio
- Pico pedestals
