

Multi-Monitor Graphics for Increased Productivity

The VisionTek RX550 4GB 4x HDMI Video Card lets you power four 4K monitors at 60 Hz each. The graphics card supports full size HDMI outputs and AMD Radeon Eyefinity allows you to configure your screens in a variety of modes to optimize your desktop.

Each port supports independent resolutions, audio and refresh rates so you can use a variety of monitors for your setup.

The bus-powered design works in most systems that have a full height PCIe 3.0 card slot available.
