

1. Standard position

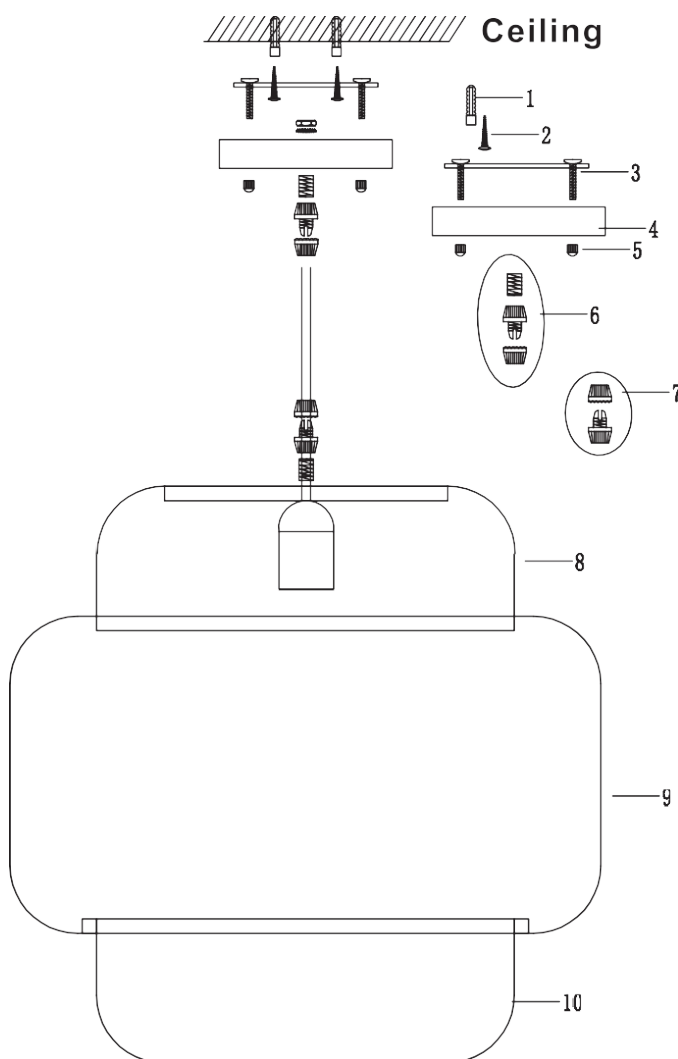

3. Expansion glue

2. Electric drill

4. Screw in

Installation steps:

1. Draw dots on the ceiling according to the holes of 3, and then use a hammer to knock 1 into the ceiling.
2. After passing 2 through 3, screw it into 1, fix 3.
3. According to the shape shown in the figure, gently pull the lampshades 8 and 10 out of 9.
4. Pass the wire through the lampshade, and then pass through 7, 6, and 4 in turn to connect with the wires of the house. Then tighten 7 and 6 respectively.
5. Finally, install 4 on 3 and tighten 5.
