

How to connect via Bluetooth?

For IOS Phone

Step 1: Reset the bulb

Before resetting, please power off the device

Start resetting: Power on then off (repeat this process for three times)

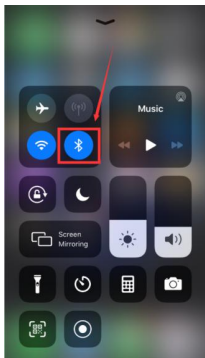

(note: Don't switch it too fast)

Reset successful: the light will flash for a few second

Step 2: Download and install "Magic Home Pro" APP

Step 3: First, you have to turn on Bluetooth (Don't stay to wait for pairing), and then immediately enter the app
